Company Presentation **Production Capacity**

Founded in 2016 and located in the Jiangxian Development Zone, Shanxi Province, the company is a modern facility boasting advanced technology and equipment, specializing in environmentally friendly molding materials. It integrates research and development, production, and sales as an enterprise in the field of environmentally friendly packaging materials. The company covers an area of over 15,000 square meters and features a variety of automatic and semi-automatic molding equipment, as well as a professional automatic drying line. Its daily production capacity is 30,000 sets. This production capacity and scale are among the leading companies in the industry in Northern China.

The company specializes in the production of molded paste products, egg paste, and tray paste. We offer trays for wine, coffee, milk, and beverages, as well as disposable paste trays, meal trays, metal electronic packaging liners, industrial packaging trays, and more. These trays can be customized for mold making. The raw materials are made entirely of 100% pure paste, ensuring green and environmentally friendly packaging. Our high-quality, biodegradable gift boxes are recyclable. Samples can be customized to meet customer requirements for mold production.
