

ABOUT EGO & CHERVON

EGO Power+, part of the global CHERVON Group, focuses on superior, environmentally-sustainable battery-powered technology.

environmentally- sustainable battery-powered cordless technology. A truly innovative pioneer, we launched the first line of cordless outdoor equipment to have the power and performance of petrol, yet without the noise, fuss, and fumes.

Since we began in 2012, EGO has become the US's #1 rated battery outdoor power equipment brand. In Europe, where we launched in 2014, we're a market leader with a network of over 2,500 approved dealers.

MORE THAN MOWERS AND BLOWERS

While EGO's unique patented ARC Lithium™ and PEAKPOWER™ technology already out-performs petrol, we will continue to explore and push the frontiers and create even more exceptional products that are better for the environment and better for users.

However, our vision of superior and more sustainable battery power takes a longer view of the future than award-winning garden tools. The potential for this technology offers endless opportunities in a range of sectors.

Our battery technology has opened up the potential of tools that have previously been excluded from the growing trend for battery-powered outdoor power equipment. It offers dealers and manufacturers exciting opportunities to switch on to EGO and get ahead of competitors.

CHALLENGE 2025

EGO's commitment to superior battery power is also a commitment to sustainable energy use. The Challenge 2025 campaign is about presenting evidence on how petrol is having a

influence positive change.

EDEN REFORESTATION PARTNER

As part of our commitment to Challenge 2025, EGO have partnered with the Eden Reforestation Projects and pledge to plant a tree for every EGO tool sold in Europe and in addition, each tool that is registered for extended warranty.

business established in 1993.

CHERVON is an innovative, global player in the power tool and outdoor power equipment industries. Its products support customers' businesses and address end users' needs.

It leverages research, design, engineering and manufacturing expertise to build tools for the global marketplace. These tools are consciously designed to make work better, easier and more efficient.

CHERVON-built products are sold by more than 30,000 stores in 65 countries. It's a Top 10 player in the global power tool industry.
