ECOVACS GOAT G1 Navigation Beacon Buying Guide

Dear customers, thanks for your interest in ECOVACS GOAT G1.
We hope to bring you a perfect mowing experience with ECOVACS GOAT G1.

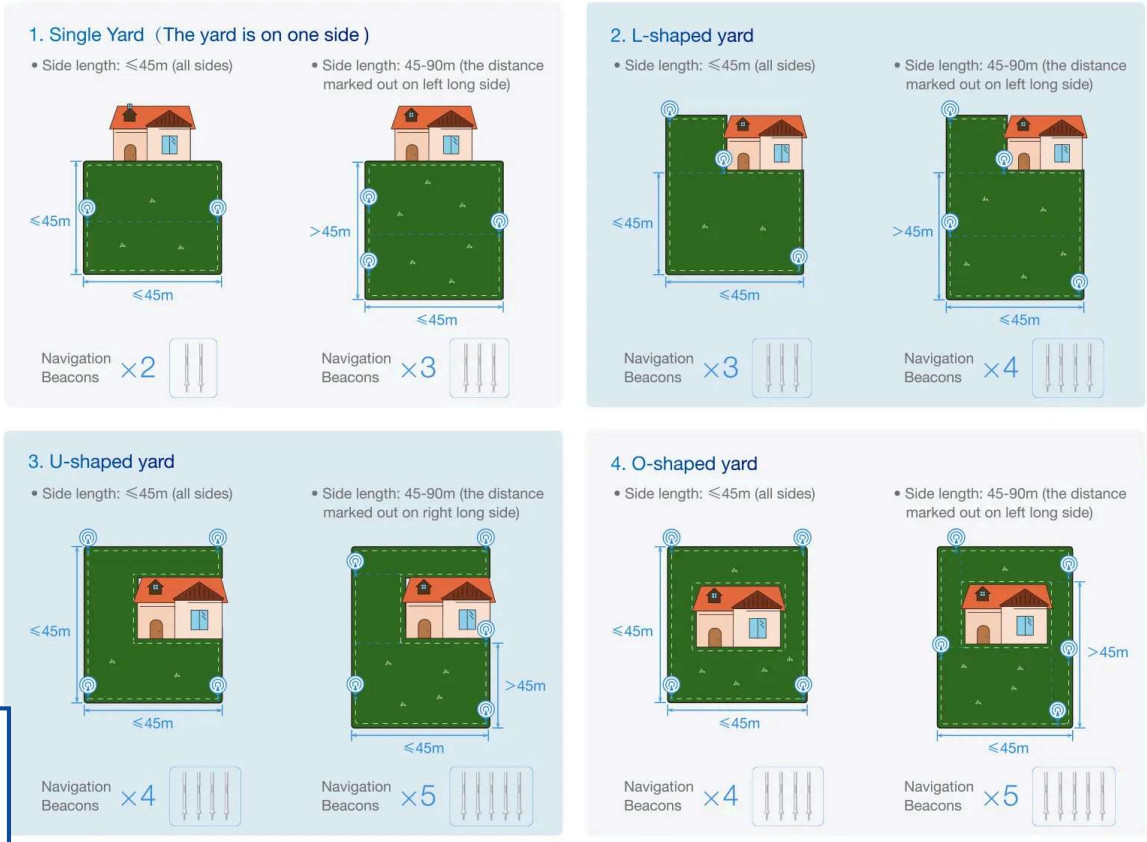

- Find the suitability of ECOVACS GOAT G1 for your garden.
- Determine the total number of UWB signal poles you need for your yard.
- Add the ECOVACS GOAT G1 and any additional UWB signal masts required to the shopping cart.
- Pay and complete the purchase.

The function of the UWB signal tower: The UWB signal is used to connect to the ECOVACS GOAT G1 to determine the location of the ECOVACS GOAT G1, which allows for more accurate calibration of the ECOVACS GOAT G1. Normally, a UWB transmission mast can cover a radius of 45 meters. Due to the different shapes of gardens, an assessment of your garden should be made before purchasing.
