About this item

- [Wireless Setup & Advanced AI Mapping] Simplify lawn maintenance with ViAX. Powered by UltraEyes 1.0, it maps your terrain and sets virtual boundaries, wireless, no RTK stations or signal posts. This smart, 100% wireless mapping ensures accurate coverage and effortless maintenance of your entire lawn
- [UltraEyes 1.0: Bi-vision with HDR Imaging] UltraEyes 1.0 combines HDR imaging and intelligent algorithms to deliver millimeter wide-angle perception, ideal for mapping and obstacle avoidance. With a field of view of 120° × 70° and a range of 50m, it captures every detail of your lawn, ensuring reliable performance even without GPS or external signals, and allowing accurate and robust navigation
- [Efficient and complete mowing] ViAX provides complete and efficient coverage thanks to U-shaped path planning and double edge cutting. It follows optimized routes for maximum yield and little overlap, alternates between cutting on the limit and along it according to the difference in elevation, adapts to the terrain and offers a clean turf by reducing manual mowing
- [Mastering complex terrains] Designed for everyday gardens, Mova ViAX navigates narrow passages of 60 cm, climbs slopes up to 40% and overcomes obstacles of 4 cm. Its front-wheel drive, omnidirectional rear wheel and all-terrain tires ensure optimal grip and agile motion, for reliable performance on segmented lawns, uneven ground and tight turns
- [Control your lawn with ease with the app] ViAX allows you to easily manage multiple gardens or separate lawn areas with dual card management. Customize your mowing zones and plan your schedules remotely via the MOVAhome app, for a mowing experience that's totally tailored to your needs, wherever you are

- [Intelligent AI: 300+ obstacles avoided] Equipped with UltraEyes 1.0 bi-vision system, ViAX intelligently identifies and avoids over 300 obstacles. Its advanced AI algorithms analyze a wide variety of objects—from people, animals, toys and garden furniture to small elements like a garden hose—ensuring safe, accurate and reliable mowing even in complex environments
- [Anti-theft protection and true comfort] ViAX with TrueGuard (AI video surveillance + human detection) protects the garden: anti-theft triggers alerts in the App as soon as hefting; MOVA link module, optional, gives GPS tracking. Quiet, economical, weather-resistant and easy to clean, it combines safety and comfort

NICKEL

Reviewed in Belgium on 10 March 2026
Style Name: VIAX 250 | Verified Purchase

Très facile d'installation

How customer reviews and ratings work

Possibilité de créer des zones d'évitement et d'autres de passages autorisés (chemin en pierre au milieu de la pelouse)

Pas de problème pour la connection par WiFi 2.4 ou 5ghz.

Tond jusqu'à épuisement de batterie et retourne au point où elle s'est arrêtée après rechargement complet.

N'a pas peur des inégalités dans le jardin et elle évite parfaitement les obstacles .

Très silencieuse

★★★★★ **Robot sans fil pour petites surfaces**

Reviewed in Belgium on 20 April 2026

Style Name: VIAX 250 | Verified Purchase

Très contente de mon robot. J'ai une pelouse de 70m2 et il fait le travail en 45min. Des belles lignes bien droites puis il tond les bords. Je le conseille vivement.

★★★★★ **Étonné en bien de mon achat**

Reviewed in Belgium on 26 May 2026

Style Name: VIAX 250 | Verified Purchase

Livraison dans les temps. Emballer dans un deuxième carton.

Je n'ai pas le terrain le plus compliqué du monde un rectangle de 10 sur 15 plat, installation faite en 10 minutes, configuration de la zone en 10 minutes le robot fait ses repères et c'est parti.

Application facile a utiliser et à paramétrer.

Programmation du jour de l'heure un mode nuit ou le robot de tond pas.

Pas de bug pour le moment.

Le robot tond en une fois à part la première fois mais une fois rechargé il reprend la ou il s'est arrêté.

★★☆☆☆ **Si vous avez un jardin facile pourquoi pas. Si complexe. Ne pas acheter**

Reviewed in Belgium on 8 June 2026

Style Name: VIAX 250 | Verified Purchase

Robot bas de gamme.

Laisse des bordures importantes.

Oublie de tondre des lignes entières.

J'ai retrouvé le robot en bas de l'escalier qui mène au jardin malgré des consignes spécifiques pour éviter ce type de soucis.

★★★★★ **Excellent robot tondeuse, simple et efficace !**

Reviewed in France on 14 May 2026

Style Name: VIAX 250 | Verified Purchase

Excellent robot tondeuse, simple et efficace !

Très satisfait du MOVA VIAX 250 après plusieurs jours d'utilisation. L'installation s'est faite beaucoup plus facilement que je le pensais et l'application est intuitive. Le robot cartographie bien le terrain et la tonte est vraiment propre et régulière, même sur des zones un peu complexes.

Le gros point fort pour moi est le gain de temps : la pelouse reste impeccable sans avoir à sortir la tondeuse chaque week-end. Le robot est également très silencieux, ce qui permet de le faire fonctionner sans gêner le voisinage.

J'apprécie aussi sa bonne gestion des obstacles et sa capacité à revenir automatiquement à sa base sans problème. La qualité de fabrication inspire confiance et le produit donne une vraie impression de fiabilité.

Au final, un excellent investissement pour avoir une pelouse toujours nette avec un minimum d'effort. Je recommande sans hésiter !

Katie

★★★★★ **Einfach eingerichtet, gute Ergebnisse auf kleiner Fläche**

Reviewed in Germany on 26 May 2026

Style Name: VIAX 250 | Verified Purchase

Wir nutzen den MOVA ViAX 250 seit einigen Wochen in unserem Reihenhausgarten mit ungefähr 150 m² Rasenfläche. Die Einrichtung war insgesamt unkompliziert, vor allem weil keine Begrenzungskabel verlegt werden müssen. Das war für uns ehrlich gesagt einer der Hauptgründe für den Kauf.

Positiv ist außerdem, dass der Rasen durch das regelmäßige Mähen insgesamt deutlich gepflegter aussieht. Die App wirkt übersichtlich und die Zeitpläne lassen sich schnell einstellen.

Der Mähroboter arbeitet relativ leise und fällt im Alltag kaum auf. Für normale, eher einfache Rasenflächen reicht die Navigation vollkommen aus. Auch unter leichtem Baumbestand hatte er bisher keine größeren Probleme.

An den Rasenkanten bleibt teilweise ein schmaler Streifen stehen, sodass man gelegentlich noch mit dem Trimmer nacharbeiten muss. Außerdem merkt man bei sehr engen Stellen oder wenn viele Gegenstände im Garten stehen, dass die Kamera-Navigation manchmal etwas vorsichtiger reagiert.

Für kleine und eher einfache Gärten finden wir das Gerät insgesamt aber sinnvoll und angenehm im Alltag.

★★★★★ **Preciso**

Reviewed in Italy on 21 May 2026

Style Name: VIAX 250 | Verified Purchase

Un robot tagliaerba davvero intelligente e semplice da usare! Il MOVA ViAX mi ha colpito soprattutto per il set-up completamente wireless: niente cavi da interrare, niente stazioni RTK o installazioni complicate. In pochi minuti ha mappato il giardino grazie al sistema UltraEyes 1.0 e ha creato confini virtuali con una precisione impressionante.

La navigazione è davvero avanzata: riconosce ostacoli, persone, animali domestici e persino oggetti piccoli come tubi o giocattoli lasciati sul prato. Il sistema Dual Vision HDR funziona benissimo anche in zone dove il segnale GPS è debole o assente.

La qualità del taglio è eccellente: segue percorsi ordinati a U, evita sovrapposizioni inutili e rifinisce molto bene anche i bordi. Ho un giardino con pendenze e passaggi stretti, ma il ViAX si muove senza problemi grazie alle ruote all-terrain e alla grande trazione.

Molto comoda anche l'app MOVAhome, intuitiva e completa: posso gestire più aree del prato, programmare i tagli e controllare tutto da remoto. Apprezzatissime anche le funzioni antifurto e le notifiche intelligenti.

Silenzioso, preciso e davvero autonomo: un prodotto premium che fa risparmiare tempo e mantiene il prato sempre perfetto.

Ralph

A great help in my garden!

Reviewed in the Netherlands on 31 May 2026

Style Name: VIAX 250 | Verified Purchase

I have done quite some research before I decided to buy the Mova Viax 250 and I can only say it fully meets my expectations.

Easy set up, and great performance in terms of mowing my lawn.

I have quite a complex garden with two zones, trees around and smaller alley. GPS or cable based setups will not work here, hence I'm happy with Mova's camera based system.

Recomendable 100x100

Reviewed in Spain on 26 May 2026

Style Name: VIAX 250 | Verified Purchase

Sorprendido grata mente.Se instala y configura rapidisimo. Mi jardin tiene 130 metros cuadrados y lo siega en 2 horas cargando una vez en medio.Se carga completamente en 40 minutos y reanuda la tarea.Al principio dejaba algunas hierbas sin cortar pero como aprende con IA cada vez lo deja mas perfecto.
