Actions by Mexico against exports from China

Inception date: 09 May 2023 | Removal date: open ended

Anti-dumping

On 12 August 2022, the Mexican authorities initiated an antidumping investigation on imports of rigid PVC film from China. The products subject to investigation are classified under HS code subheadings 3920.49.01 and 3920.49.99. This investigation follows the application lodged on 31 January 2022 by Industrias Plásticas Internacionales, SA de CV, and Plami, SA de CV on behalf of the Mexican industry.

On 9 May 2023, the Mexican authorities imposed a provisional antidumping duty on imports of the subject good from China. The rate of duty on imports from China is set at 57.63%.

Affected sectors and products

363 Semi-manufactures of plastics

3920 Other plates, sheets, film, foil and strip, of plastics, noncellular and not reinforced, laminated, supported or similarly combined with other materials.

392049 Other

India launches anti-dumping investigation against China, South Korea, Malaysia, Norway, Taiwan and Thailand

Published date: 04 October 2023

India is launching an anti-dumping investigation on imports of polyvinyl chloride paste grades (e-PVC) originating from China, South Korea, Malaysia, Norway, Taiwan and Thailand.

The investigation by the Ministry of Commerce and Industry (MCI) was initiated by an unnamed Indian producer of e-PVC, which claimed that the domestic industry is suffering from alleged dumped imports from the countries being investigated. This prevented domestic producers from increasing domestic e-PVC prices significantly and recovering margins, with inventories remaining elevated as more competitively priced e-PVC imports emerged.

The MCI will investigate e-PVC imports into India from April 2022 to March 2023, followed by injury examination periods between 1 April 2019 to 30 March 2020, 1 April 2020 to 31 March 2021, 1 April 2021 to 31 March 2022 and 1 April 2022 to 31 March 2023.
