**China Petroleum & Chemical Corporation** (hereinafter referred to as the Company) was formerly known as China Petroleum & Chemical Corporation, established in July 1983. In July 1998, in accordance with the Central Committee of the Communist Party of China's strategic restructuring of petrochemical industry, China Petroleum & Chemical Corporation was restructured on the basis of the former China Petroleum & Chemical Corporation. In July 2018, it was restructured into China Petroleum & Chemical Corporation Limited. The Company is a large-scale energy and chemical group company, covering upstream and downstream operations, production, supply and sales, and domestic and foreign trade, with a registered capital of RMB 326.5 billion. The board is the legal representative, and the headquarters is located in Beijing. The Company exercises the rights of an investor, such as asset ben

making, and selection of managers, over the relevant state-owned assets of its wholly-owned, holding, and shareholding enterprises. It operates and supervises state-owned assets in accordance with the law and assumes corresponding responsibilities for maintaining and increasing their value.

The company's business scope includes: organizing its subsidiaries' exploration, extraction, storage, transportation (including pipeline transportation), comprehensive utilization of petroleum and natural gas; organizing its subsidiaries' petroleum refining; organizing its subsidiaries' wholesale and retail of petroleum products; organizing its subsidiaries' production, sales, storage, and transportation of petrochemical and other chemical products; industrial investment management; exploration, design, construction, and installation of petroleum and petrochemical engineering projects; maintenance and repair of petroleum and petrochemical equipment; manufacturing of electromechanical equipment; research, development, application, and consulting services for alternative energy products; and import and export business. (Market entities may independently choose their business products and business activities in accordance with the law; for projects that require approval by law, business activities shall be carried out in accordance with the law after approval by relevant departments; business activities prohibited or restricted by national and municipal industrial policies are not permitted.)

Currently, the company is China's largest supplier of refined oil and petrochemical products, the world's largest oil refining company, the second largest chemical
