▲ Financial grant

In 2023, the Shenzhen-listed firm Lb Group Co., Ltd. (also known as LBG) disclosed in its stock exchange filings the receipt of approximately USD 15 million of government subsidies.

Lb Group Co., Ltd. is a Commodity Chemicals enterprise based in Jiaozuo, Henan Province.

In China it is a legal requirement that publicly-listed firms report any subsidies received from government bodies. The stated subsidy amounts refer to a given calendar year. It is possible that this firm received other forms of state aid that have not been declared.

The affected products and sectors have been chosen based on the "main products" and CSRC sector classification reported in the financial data of the firm. The subsidy amounts in USD were computed using the year-average exchange rate to the Chinese Renminbi. The subsidy amount(s) reported here are the cash equivalents as estimated by the recipient firm.

A state act in the GTA database is assessed solely in terms of the extent to which its implementation affects the extent of discrimination against foreign commercial interests. On this metric, the state aid proposed here is discriminatory.
