Case No.: AD0091

Anti-dumping investigation

Linear Low Density Polyethylene (LLDPE) originating from the United States of America (US)

Completed on behalf of (provide the name of your company):	Chevron Phillips Chemical Company LP
--	---

(to note, we use the term “company” to include all forms of business organisation including partnerships and sole traders)

Note:

Please provide **two copies of your response to this form**: a **confidential** and a **non-confidential version**. Both copies must be returned to the TRA using the Trade Remedies Service (www.trade-remedies.service.gov.uk).

When you have completed each form, indicate the **confidentiality** status of the document by placing an ☐ in the relevant box below and in the header of the form. We strongly recommend this questionnaire be completed on a computer, so this step is easy to complete.

- ☐ Confidential
- ☒ Non-confidential (will be made available on the [public file](#).)

Deadline for response:	16 July 2026

Introduction

Registration of interest to the investigation

We invite interested parties and contributors to **register** their interest in this investigation **by completing the relevant sections** as indicated in this form **and submitting the completed form** using the Trade Remedies Service (www.trade-remedies.service.gov.uk).

An interested party is either:

- a government of the foreign country or territory subject to the investigation;
- an overseas exporter, an overseas producer or a domestic importer of the goods subject to the investigation;
- a UK producer of goods that are like the goods subject to the investigation; or
- a trade or business association representing one or more of the above parties.

A contributor is a person or company who is not an interested party but who wants to register so that they can participate in an investigation.

Scope of the investigation

Goods concerned	Linear Low-Density Polyethylene (LLDPE)
Period of investigation (POI)	1 January 2025 to 31 December 2025
Injury Period	1 January 2022 to 31 December 2025
Country goods originating from	United States of America (US)

For further details, please refer to the *Notice of Initiation* on the public file: [Trade Remedies Authority](#).

Completing this registration form and pre-sampling questionnaire

To register to this case, you need to provide two copies of your response to this form: a confidential and a non-confidential version. Your non-confidential version should be as similar as possible to your confidential version except for the redaction of the confidential information.

Both copies must be returned to the TRA by **16 July 2026** using the Trade Remedies Service (www.trade-remedies.service.gov.uk).

We would like to make you aware that if the information we have requested is not supplied within a reasonable time, the TRA will be free to make determinations on the basis of the facts available.

The non-confidential version of your registration form and pre-sampling questionnaire may be placed on the public file: [Trade Remedies Authority](#).

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures. Please see the [TRA's public guidance](#)¹ for further information on providing confidential information and non-confidential summaries.

All information provided to the TRA in confidence will be treated as confidential in accordance with regulation 45 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations) and will not be disclosed (except in limited circumstance as permitted by regulation 46 of the Regulations) and will be stored in protected systems.

Request to complete a detailed questionnaire

If, on the basis of the information provided in this form, we determine that you are an overseas exporter or an importer of the goods subject to the investigation, or a UK producer of goods that are like the goods subject to the investigation, or another interested party (other than the Government of the US) or a contributor, we will ask you to complete a detailed questionnaire to inform this investigation.

If we consider it appropriate, we may only ask a sample of overseas exporters, importers and/or UK producers to complete a detailed questionnaire. By submitting this completed registration form and pre-sampling questionnaire, you agree that you may be included in any such sample.

If your company is included in the sample, you will be asked to respond to the questions in the detailed questionnaire and to support the TRA in verifying your responses. This may involve the TRA carrying out a verification visit to your premises.

If you are an overseas exporter and indicate that you do not agree to possible inclusion in a sample, your company may be deemed not to have cooperated in the investigation. The TRA will base its findings for non-cooperating parties on facts available. This may result in an outcome that is less favourable to your company than if it had cooperated.

If we decide to sample overseas exporters, and your company is not selected for this sample, you may submit a request to us to calculate individual margins for your company. We will accept your request providing that:

- you submit the required information on time; and

¹ <https://www.gov.uk/government/publications/the-uk-trade-remedies-investigations-process/the-tras-investigation-process>

- the number of exporters subject to examination is not so large that complying with the request would be unduly burdensome and risk preventing the timely completion of the investigation.

If information is not supplied within a reasonable time, the TRA may make determinations on the basis of the facts available.

Section A: About your company

A1. Your company's activities

1. To determine your company's role for the purpose of this investigation, please select the most applicable option for your company. Please refer to the period of investigation (POI) defined on page 2.

Overseas producers and exporters

- ☒ [A1.1] During the POI, we both produced and directly/indirectly exported the goods concerned from the US to the UK.

Note: Please complete sections A2, A3, and B.

- ☐ [A1.2] During the POI, we produced the goods concerned in the US, but did not export to the UK.

Note: Please complete sections A2 and B.

- ☐ [A1.3] During the POI, we directly/indirectly exported the goods concerned from the US to the UK, but did not produce the goods concerned.

Note: Please complete sections A3 and B.

UK producers and importers

- ☐ [A1.4] During the POI, we produced goods that are like the goods concerned in the UK and imported the goods concerned originating from the US to the UK.

Note: Please complete sections A4, A5, and B.

- ☐ [A1.5] During the POI, we produced goods that are like the goods concerned in the UK (i.e. the UK like goods), but we did not import the goods concerned from the US, but imported like goods from another country.

Note: Please complete sections A4, A5 and B.

- ☐ [A1.6] During the POI, we imported the goods concerned originating in the US to the UK, but we did not produce the goods that are like the goods concerned (the UK like goods).

Note: Please complete sections A5 and B.

Other

- ☐ [A1.7] Other.

Note: Please complete section B.

2. If you selected 'Other' [A1.7], please describe the activity/activities of your company and your company's interest in this investigation in the field below.

N/A

3. Indicate whether your company is a member of any representative organisations (e.g. a trade body or chamber of commerce). If so, provide a copy of any relevant documentation.

CPCChem is a member of several industry and business associations, including [Redacted: list of industry associations]

A2. Production and domestic sales of the goods concerned

Complete this section if you indicated under **A1** that **you are a producer of the goods concerned in the US**.

4. Please refer to the description of the goods concerned on page 2. In the field below, describe the goods that you produce and that fall within the description.

Chevron Phillips Chemical Company LP (**CPCChem**, or the **company**) offers a comprehensive portfolio of polyethylene solutions, including HDPE, MDPE, LDPE, LLDPE and mLLDPE products. Out of these, only LLDPE and mLLDPE products are potentially relevant for this investigation. A full overview of CPCChem's polyethylene product range is available on the Company's website, available [here](#).

5. Please provide your company's total production volumes and production capacity for the goods concerned (LLDPE) during the period of investigation (POI) in the table below.

Total production volume (POI) mt	[720,000 – 920,000]
Total production capacity (POI) mt	[850,000 – 1,100,000]

Consider providing these figures in ranges in your non-confidential version of this form, in accordance with our [guidance](#).

6. Please provide details of how your production volume and capacity (for LLDPE) has changed over the injury period:

	January 2022- December 2022	January 2023- December 2023	January 2024- December 2024
Total production volume mt	[670,000 – 850,000]	[690,000 – 920,000]	[730,000 – 980,000]
Total production capacity mt	[760,000 – 1,000,000]	[840,000 – 1,100,000]	[840,000 – 1,100,000]

Consider providing these figures in ranges in your non-confidential version of this form, in accordance with our [guidance](#).

7. Please provide details of finished stock of the goods concerned (LLDPE)

	January 2022- December 2022	January 2023- December 2023	January 2024- December 2024	January 2025- December 2025
Total finished stock volume mt	[100]	[85]	[130]	[76]

Consider providing these figures in ranges in your non-confidential version of this form, in accordance with our [guidance](#)

8. Please give details of all associated parties involved with the company in the production and sales (export and/or domestic) of the goods concerned during the period of investigation. Both natural persons (individuals) and legal persons (e.g. companies) are considered to be associated where they meet the definition of 'Related Persons' in [regulation 128 of the Customs \(Import Duty\) \(EU Exit\) Regulations 2018](#).

Consider redacting this information in your non-confidential version of this form, in accordance with our [guidance](#).

B1.3 Any other companies

31. Please provide a list of any other known companies, including the nature of their company and any associations with other companies. This may include, for example, companies that are involved in the importation, distribution, or sale of goods that are like the goods concerned from third countries.

N/A

B2. Scope

32. If you consider that the description of the goods concerned for the investigation should be varied, please specify the suggested changes and provide your reasons in the field below.

At this stage, the company does not propose any amendment to the scope of the investigation. However, the company reserves all rights to comment further on product scope and product definitions as additional information becomes available during the investigation. The company notes that differences in co-monomer, catalyst technology, production process and other product characteristics may be relevant to product comparability.

33. Please provide any further remarks relating to the goods concerned and the goods that are like the goods concerned (the UK like goods). Areas may include, for example: the interchangeability of different types and brands of LLDPE (e.g. C4, C6 and C8).

N/A

B3. Product control numbers

The TRA uses product control numbers (PCNs) to define and distinguish the different types or subcategories of goods that fall under the goods description of the goods concerned. Subcategories are developed on the basis of differences in the physical and/or commercial characteristics of the goods which may impact the price at which each subcategory is sold.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the UK and those produced in the US.

We have created the following draft PCN table:

TYPE	CODE	DESCRIPTION
Type of polyethylene	P	Low Density Polyethylene (LDPE) (Out of scope)
	H	High Density Polyethylene (HDPE) and Ultra High Density Polyethylene (UHDPE) (Out of scope)
	L	Linear Low Density Polyethylene (LLDPE)

Number of co-monomers	C4	4 - Butene
	C6	6 – Hexene
	C8	8 – Octene
Catalyst	Zn	Ziegler-Nata catalysts
	Me	Metallocene catalysts
	Ot	Other
Production method	G	Gas Phase process
	L	Liquid Phase process
	S	Slurry Loop Phase process

34. Please review the above draft PCN structure for this investigation and comment in the field below whether the PCN structure is adequate and appropriate to categorise the goods produced, exported and/or imported by your company.

The company considers that the proposed PCN structure provides a useful initial framework because it distinguishes products based on key characteristics including co-monomer, catalyst type and production process. However, the company reserves the right to propose refinements after a detailed review of the product ranges involved in the investigation.

35. Please provide details of any technical or physical characteristic not included in the PCN structure that may affect the price comparison between the goods concerned and the goods that are like the goods concerned (the UK like goods).

Additional characteristics that may influence comparability and pricing include density, melt index, molecular weight distribution, additive package, end-use application, performance characteristics and whether the product is produced using metallocene technology. These factors may influence market positioning and pricing.

36. If you are an overseas exporter or importer of the goods concerned or a UK producer of the goods that are like the goods concerned (the UK like goods), comment on whether the proposed PCN structure adequately aligns with your goods range. In particular, we would welcome your comments on:

- the categorisation of product features;
- the list of products included in the “other” category and whether this prevents a fair comparison between PCNs;

- whether you produce, or are aware of, any specialised products that fall within the definition of the goods concerned or the goods that are like the goods concerned (the UK like goods) which have a sufficiently different price point to make them unsuitable for comparison with the other sub-categories of the “goods concerned”; and
- do you export, produce or import any goods that could be categorised under more than one PCN? If so, please suggest any changes to the proposed PCN structure?

The company reserves the right to provide additional comments regarding specialised or differentiated LLDPE products following further technical review.

37. Please provide details of any manufacturing process differences which you think may influence the PCN structure and the price comparison between the goods concerned or the goods that are like the goods concerned (the UK like goods).

Differences in catalyst technology, co-monomer usage and production processes may affect product performance characteristics and market value and should be considered when assessing comparability between products.

B4. Other comments

38. Please use the field below to provide additional information that you consider relevant to this investigation.

CPChem hereby registers as an interested party in order to participate fully in this investigation. Submission of this registration form is without prejudice to any future position regarding scope, product comparability, sampling, dumping, injury, causation or any measure that may be proposed. The company reserves all rights throughout the investigation.

CPChem would be pleased to be sampled as an overseas exporter in this case or, in the alternative, to be individually examined, and confirms its willingness to fully cooperate with the TRA throughout the investigation, including providing complete, meaningful and timely responses to its requests for information.

CPChem remains at the TRA's disposal for any clarification it may need regarding this registration form.
