

NOTICE OF INITIATION

Ceramic Tableware and Kitchenware originating in the People's Republic of China

Initiation of an Interim Review

Review No. IR0093

The Trade Remedies Authority (TRA) makes the following Notice under regulation 67(7) of The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations) to initiate an interim review.

This review concerns measures which were imposed in: the Secretary of State's notice no. 2025/21.¹

The Secretary of State's public notice:

- related to certain ceramic tableware and kitchenware, referred to as "the goods subject to the review" and described below in Annex A, and
- gave effect to the Secretary of State's decision to accept the TRA's recommendation to vary the application of the measure so that it applies until 16 July 2029 and to maintain the anti-dumping duty on certain ceramic tableware and kitchenware originating from the PRC.

The TRA is satisfied, on its own initiative in accordance with regulation 67(1)(b) of the Regulations, that there is sufficient information substantiating the need for a partial interim review of the measure.

The exporting country is: The People's Republic of China (PRC)

The description of the goods subject to review is set out in Annex A.

Persons known to the TRA to import or export the goods subject to review are detailed in Annex B.

The date of initiation of the review is: 20 July 2026

The period of investigation (POI) for the review is: 01 April 2025 to 31 March 2026

¹ [Trade remedies notice 2025/21: anti-dumping duties on certain ceramic tableware and kitchenware originating from the People's Republic of China - GOV.UK](#)

Summary of the Reasons for Initiating the Review

The TRA has determined that there is sufficient information substantiating the need for a review of the existing anti-dumping measure.

The TRA considers that there may be evidence that, since the application of the measure, the existing anti-dumping amount is not sufficient to offset the injury caused by the dumped goods.

The TRA has reviewed available data in respect of imports of the goods subject to review.² We observe that, despite the existence of an anti-dumping measure on these goods, the available data indicates sustained levels of imports and a downward trend in average unit price – with imports from the PRC consistently priced below the global average for all imports into the UK.

This information suggests that the existing anti-dumping amount may not be sufficient to prevent or offset the current level of dumping. The TRA is therefore initiating a partial interim review, to re-examine the margin of dumping.

Summary of the Issues involved in the Review

When conducting the interim review, we will consider:

- whether the continuing application of the anti-dumping amount to goods is necessary or sufficient to offset the dumping of the goods which has caused or is causing injury to a UK industry in the goods;
- whether the circumstances in respect of the dumped goods has changed significantly;
- whether the existing application of the anti-dumping amount is necessary or sufficient to offset or prevent the injury caused by dumped goods previously established;
- whether, and if so to what level, it is appropriate to vary the anti-dumping amount.

Summary of the Review Process

The review may involve some or all of the following steps:

- inviting parties to register their interest in the review;
- issuing a questionnaire to:
 - interested parties who have registered an interest in the review, and
 - contributors who have registered an interest in the review;
- we may consider it appropriate to limit examination to a sample of:
 - overseas exporters,

² HS8 data for the commodity codes which have been listed in Annex A, obtained from [UK Trade Info \(HM Revenue & Customs\)](#) [downloaded May 2026]

- overseas producers,
- importers,
- categories of goods,
- UK producers,
- transactions for the purchase of the like goods in the UK, or
- anything else we consider appropriate to sample;
- verification to further assess and examine information, which may include verification visits and desktop verification;
- analysing information gathered;
- publishing a Statement of Essential Facts, with a set period of time during which parties will be able to comment on the Statement of Essential Facts;
- determining whether to vary the anti-dumping amount; and
- conducting the economic interest test where proposing to extend the measure;

At the end of the review, we will make a recommendation on whether the anti-dumping measure should be varied. The Secretary of State will then decide whether to accept, reject, or ask that the TRA reassess the recommendation.
