

INTERIM REVIEW No. IR0093

Anti-Dumping duties on Ceramic Tableware and Kitchenware originating in the People's Republic of China (PRC)

Notification of proposed sample

The Trade Remedies Authority (TRA) has decided to limit the issuing of questionnaires to a sample of certain interested parties in accordance with regulations 54(4) and 56 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations).

All sampled interested parties will be expected to provide adequate responses to questionnaires and allow the TRA to verify the data provided.

In accordance with regulation 56(4) of the Regulations, the TRA publishes this notification to provide details of its sampling approach and the proposed samples of overseas exporters and importers.

The TRA invites overseas exporters and importers to provide comments on this proposed sample via the [Trade Remedies Service \(TRS\)](#) by **28 August 2026**. The TRA will consider any comments received before publishing a final sampling decision.

Overseas exporter sampling

Based on the information available to the TRA, the proposed sample is composed of the following overseas exporters:

- Hunan Quanxiang Ceramics Corp. Ltd
- Liling Top Collection Industrial Co., Ltd

In accordance with Regulation 56(3)(a) of the Regulations, the proposed sample is based on the largest volume of exports from the PRC to the UK that the TRA is reasonably able to investigate. Based on the information provided by the known interested parties, we determined that the exporters in the proposed sample represent more than 17% of the exports of the goods subject to review to the UK during the POI.

Importer sampling

Based on the information available to the TRA, the proposed sample is composed of the following importers:

- Neville UK PLC
- Lesser & Pavey Ltd

In accordance with Regulation 56(3)(b) of the Regulations, the proposed sample is based on the largest volume of imports from the PRC during the POI, of those importers for which ceramic tableware and kitchenware represents a significant proportion of their business. This statistical method is assessed to offer a better reflection of the potential economic impact of any change to the measure, compared with focusing only on the volume of imports.

Publication of registration forms

Non-confidential versions of the registration forms submitted by the overseas exporters and importers in the proposed sample have been published on the [IR0093 public file](#).

Annex 1 lists the rest of the non-sampled overseas exporters and overseas producers which registered their interest to the case, and summarises the information provided by these parties which was used to inform the provisional exporter sample.

Annex 2 lists the rest of the non-sampled importers which registered their interest to the case, and summarises the information provided by these parties which was used to inform the provisional importer sample.

The information presented in these annexes constitutes all of the information submitted within registration form responses which the TRA has used to inform the proposed samples.

Further information

The TRA's [public guidance](#) provides more information about the investigations process, including further information about sampling.

Annex 1 – List of registered non-sampled exporters and overseas producers

Export share estimates (percentage of all exports of goods subject to review during the POI) are shown for the exporters with the greatest export volumes, as reported in the submitted non-confidential registration forms, up to the point where the cumulative export share held by these exporters totalled approx. 50% of all exports of goods subject to review to the UK during the POI.

The approximate export share percentages have been determined by the TRA on the basis of the non-confidential export volume data submitted by these exporters.

These (17) exporters which collectively account for approx. 50% of all exporters, including the two exporters selected in the provisional sample, are listed in order of decreasing export share. The remaining exporters and overseas producers which registered their interest are listed alphabetically.
