About Beijing Easpring Material Technology Co Ltd (300073.SZ)

Company Information

Beijing Easpring Material Technology Co Ltd is a China-based company primarily engaged in the research, development, production, and sales of lithium battery materials. The Company operates in two main businesses. The lithium battery materials business primarily involves the technical research, production, and sales of multi-element materials, cathode materials such as lithium cobalt oxide, and multi-element precursors. These materials are used in lithium battery applications such as automotive power batteries, energy storage batteries, and digital consumer electronics. The intelligent equipment business primarily involves the research, development, and production of circular die-cutting equipment for applications in consumer electronics, medical and hygiene, food packaging, and flexible circuit boards. The Company operates in both domestic and international markets.
