Introduction

About us, this case and this questionnaire

The Trade Remedies Authority (TRA) investigates whether trade remedies are needed to prevent injury to UK industry. The TRA has been established to provide the UK with its own independent trade remedies system.

This case is investigating the allegation that Linear Low Density Polyethylene (LLDPE) from the United States (US) are being dumped (exported to the United Kingdom (UK) at prices less than their normal value) and that this dumping is causing injury to the UK industry for these goods.

Why should I take part?

We are asking foreign exporters to complete this questionnaire to help us understand the industry and market for this product and assess if a measure is needed. We need to establish whether the alleged dumping has occurred and has caused injury to the UK industry.

If you are an exporter of the goods concerned to the UK but do not produce these goods, please complete Annex I, as well as sections of the questionnaire you are reasonably able to answer. Furthermore, please provide the Case Team with contact details for the company/companies that produce the goods concerned that you export.

The information your company provides will help us to reach a fair and proportionate decision.

How do I respond?

Detailed guidance on how to complete the questionnaire is provided in the instructions section below.

Please provide all the information requested by **11 September 2026.** We may need to issue a deficiency notice if we determine that the information supplied in the questionnaire is incomplete or inadequate. We may also send a notice requesting clarification or supplementary information if necessary. Therefore, please provide as much detail as possible in your responses.

Where can I find more information?

Our trade remedies guidance provides general information about our investigations and processes we follow.

If you have any specific questions relating to the case, now or while you're completing the questionnaire, please contact the Case Team at AD0091@traderemedies.gov.uk .

You can also find out more about the regulatory basis of our investigations. The TRA investigates cases under the provisions of *Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 as Amended by the Trade Remedies (Amendment) (EU Exit) Regulations 2019* and under the *Taxation (Cross-border Trade) Act 2018.*

Instructions on completing this questionnaire

Preparing your response

This section sets out guidance on how to complete this questionnaire.

If you think you won't be able to complete the questionnaire within the required time, please contact the Case Team ahead of the deadline using the contact details on the cover of this questionnaire. You should outline the length of extension you need and the reasons why. We will notify you of our decision.

If we can accommodate an extension, we will publish a note on our public file to record both the request and the extension granted.

How to answer the questions

Please read and follow all the instructions carefully. Your company will need to substantiate all claims with relevant data and information. You may be asked to attach supporting documents in appendices to supplement your responses. To help us verify your information, please retain all these documents, your completed spreadsheet annexes and any calculations you made when developing your responses.

Please also note the following points:

- Do not leave any questions blank. If the question is not relevant to your organisation, please explain why. If the answer to a question is “zero”, “no” or “none”, please write this.
- Please complete the spreadsheet annexes as requested. Annexes are named to correspond to the relevant sections of this questionnaire and must be completed with reference to the instructions provided. If you feel you cannot present the information as requested, please contact your Case Team as soon as possible.
- Please provide all formulas and calculations used within your questionnaire response.
- If there is insufficient space in any part of the questionnaire to provide the details requested, or we ask for copies of additional information, please submit this information as appendices. Please ensure that any attachments are given a corresponding appendix reference in the title of the document and that these are referenced in the boxes provided.
- Any documents not in English should be accompanied by an English translation.
- Please provide all dates in the format DD/MM/YYYY (e.g., 23/05/2019).
- Unless otherwise stated, ‘year’ or ‘calendar year’ refers to the period 1 January – 31 December and ‘quarter’ refers to the associated three-month periods e.g. 1 January – 31 March, 1 April – 30 June, etc.
- Identify all units of measurement and currencies used in tables, calculations and lists, if not provided by the corresponding instructions, and use units of measurement consistently (e.g., do not use kg and metric tonnes interchangeably).
- For all numerical figures, where appropriate please express every third number with a comma (e.g., ‘1,300’ for one-thousand three hundred, ‘1,300,000’ for one million and three-hundred thousand).
- Please limit all sales/currency/income figures to two decimal places, apply a full point as a decimal separator and use the appropriate currency symbol or abbreviation (e.g., £1,300.00).
- Provide all costing figures as actual amounts. Where actual amounts cannot be provided and you have reported standard costing instead, please indicate this in the relevant answer, and explain the variance from actual costs, if any.
- All figures should be reported net of tax unless otherwise stated.
- Please refer to the case number, AD0091, in any correspondence with the TRA.

Preparing confidential and non-confidential copies

You will need to submit one confidential version and one non-confidential version of your questionnaire and the corresponding spreadsheet annexes by the due date. We will publish the non-confidential version on the public file. **Please ensure that each page of information you provide is clearly marked either “Confidential” or “Non-Confidential” in the header.**

Please see our guidance on how to submit information for further details on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

In preparing your response, please note the following:

- It is your responsibility to ensure that the non-confidential version does not contain any confidential information.
- Remember to include a statement explaining why information obtained in your response should be treated as confidential e.g. the data is commercially sensitive.
- Provide the source for all information or data you don't own and clearly state any restrictions on sharing it.
- If you do not provide a non-confidential summary (or a statement of reasons why you cannot provide this) each time you provide confidential information, the TRA may disregard the information you give us.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the *Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019)* and will be stored in protected systems. The non-confidential version of your submission will be placed on the public file, which is available on www.trade-remedies.service.gov.uk/public/cases.

Providing information from subsidiaries or associated parties

Section A of this questionnaire includes detailed questions about your company structure. Although this questionnaire is intended for your company, our investigation covers all subsidiaries and any other associated companies involved in the import, production, sale, R&D, distribution and/or supply of the like good and/or goods concerned.

Please note, both natural persons (individuals) and legal persons (e.g. companies) are considered to be associated where they meet the definition of 'Related Persons' in Regulation 128 of the Customs (Import Duty) (EU Exit) Regulations 2018.

- If any of your subsidiaries or associated companies are also an exporting producer of the goods concerned they should **also** complete the main questionnaire. Please make sure you provide your subsidiaries with access to this questionnaire.
- If your subsidiaries or associated companies are not producers but are involved in the sales and/or marketing of the export goods concerned to the UK, they

should complete Annex I, as well as sections of the questionnaire they are reasonably able to answer.
- If your subsidiaries or associated parties are producers but are not involved in the sales and/or marketing of the export good to the UK, they should complete the relevant sections of the questionnaire.

If you have any queries about this part of the process, please contact the Case Team using the details provided on the cover of this questionnaire.

What happens next

Once you have completed your questionnaire responses including the corresponding annex(es) and any additional documents requested, you must upload confidential and non-confidential versions through our Trade Remedies Service. Following this:
- you will receive an email confirming the documents have been uploaded successfully.
- the Case Team will contact you if further information is required;
- the non-confidential responses will be placed on the public file; and
- the Case Team may contact you to arrange a visit to verify the information contained in your responses.

Verifying the information you supply

The TRA will verify, as far as possible, the information provided to it. As part of this process, we may conduct verification visits. If we need to verify information that you provide by visiting your premises, the Case Team will contact you to arrange this.

Visits can last several days, during which we will want to speak to management and staff to help establish the completeness, relevance and accuracy of the information provided.

Please keep a record of formulas and steps used in your calculations and other related material/documentation as it may be asked for during verification.

In some circumstances, verification may be conducted remotely.

The team are preparing for verification for exporters expected to be between 5 - 20 October 2026. Please indicate any dates during this time when you would be less able to host a verification visit, together with reasons.

As per our separate e-mail exchange, Respondents are available during the week of October 12 for the verification.
Appendix reference: Not applicable

Once verification is complete, the TRA will prepare a report and share a draft with you. The TRA will then ask you to prepare a non-confidential copy of the report for the public record. If you feel some information in the report should be kept confidential, please provide your reasons for this.

Preliminary comments

Responses that apply equally to all ExxonMobil affiliates involved in AD0091 have been included in the response for ExxonMobil Product Solutions Company ("EMPSC"). Where responses differ for specific ExxonMobil affiliates, they have been included in the questionnaire for the concerned affiliate.

As per the work process agreed with the TRA, [Redacted – commercially sensitive intercompany and definition arrangement].

As previously explained, GCGV is a joint-venture between ExxonMobil Chemical Gulf Coast Investments LLC and Sabic US Projects LLC [Redacted – business confidential information related to shareholding structure and selling arrangements of GCGV].

The ExxonMobil entities submitting responses to the questionnaire, are jointly referred to as "Respondents".

The Respondents note that the Notice of Initiation does not contain a definition of linear low-density polyethylene ("LLDPE"). Furthermore, the notice of Initiation includes HS codes which cover not only LLDPE but also other goods. As set out in the registration form, conventional LLDPE grades typically possess densities ranging from 0.91 to 0.94 g/cm³. Accordingly, this is the criterion that has been applied by the Respondents for the purpose of the questionnaire.

[Redacted – commercially sensitive commercial terms]

Please note that the information provided herein sets out Respondents' best understanding at the time of writing, based on information available at this stage. Respondents reserve their right to update and/or expand the information in future stages of the investigation as appropriate.

The scope of this investigation

Goods concerned

This investigation covers **Linear Low-Density Polyethylene (LLDPE)** exported from the **United States of America (US),** described as:

Polyethylene is a thermoplastic polymer made from the polymerization of ethylene (C_2H_4). Polyethylene can be produced in a number of different grades, including high density (HDPE), low density (LDPE) and – specific to this case – linear low-density polyethylene (LLDPE).

Within LLDPE there are additional product variants where ethylene is combined with different co-monomers:

a) C4 (butene)
b) C6 (hexene)
c) C8 (octene)

.In this questionnaire, these goods will be referred to as '**the goods concerned**'. Any reference to 'goods concerned' in this questionnaire refers to the goods description above, regardless of the commodity code under which they are exported.

Like goods

In addition to seeking information about your company's export sales to the UK of the goods concerned this questionnaire will also ask about your sales of like goods in your domestic market and to third countries. Any reference to '**like goods**' in this questionnaire refers to goods which are like the goods concerned in all respects, or with characteristics closely resembling them.

Please follow the instructions for each question to provide the appropriate information regarding the like goods and goods concerned.

Product Control Numbers

The TRA uses Product Control Numbers (PCNs) to define and distinguish the different types of products that fall under the goods description above.

PCNs, which come in the form of an **alphanumeric code**, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

These **LLDPE** are currently classifiable within the following CN code(s).

3901 10 10 20	3901 40 00 10
3901 10 10 50	3901 40 00 30
3901 10 10 60	3901 40 00 50
3901 10 10 90	3901 40 00 60
3901 10 90 30	3901 40 00 90
3901 10 90 90	3901 90 80 99

Table 1: PCN Table

Characteristic	Symbol	Description
Type of polyethylene	L	Linear Low Density Polyethylene (LLDPE)
Number of co-monomers	C4	4 - Butene
	C6	6 – Hexene
	C8	8 – Octene
Catalyst	Zn	Ziegler-Nata catalysts
	Me	Metallocene catalysts
	Ot	Other
Production method	G	Gas Phase process
	L	Solution Phase process
	S	Slurry Loop (liquid) Phase process

If a manufacturer produces Linear Low-Density Polyethylene (LLDPE) C6 using a Ziegler-Nata catalyst via a gas phase process the PCN code would be **“LC6ZnG”**

In this questionnaire and the corresponding annexes, you will be asked to construct PCNs representing the different types of products you produce. When giving your PCNs, please do not use any spaces, dashes or other means of separation, and ensure you follow the order of characteristics outlined in the table above.

1. Please provide details of any technical or physical characteristic not included in the PCN structure that may affect the price comparison between products.

As the response to this question is identical for all US producers, please refer to EMPSC's response to the corresponding question, which is incorporated herein by reference.
Appendix reference: Not applicable

2. Please comment on the suitability of the PCN structure in regard to your product range. This may include areas such as:
   - Categorisation of features;
   - Number of products included under “Other” which may exclude a fair comparison;
   - Specialised products which may unduly influence the comparison.

As the response to this question is identical for all US producers, please refer to EMPSC's response to the corresponding question, which is incorporated herein by reference.
Appendix reference: Not applicable

3. Please provide details of any manufacturing process differences which you feel may influence the PCN structure and the price comparison between the goods concerned and the like goods.

As the response to this question is identical for all US producers, please refer to EMPSC's response to the corresponding question, which is incorporated herein by reference.
