

PI

T20JE(T65JE)

LGMG's new electric telescopic boom aerial work platform is equipped with a lithium battery, which has the advantages of low noise and zero emissions. The max working height of the platform ranges from 21.8 to 40.2 meters (71'6" /131'11") . Platform accommodates up to 3 people and 450/300kg (992/661 lbs) dual capacity design for increased work efficiency. Excellent rough terrain performance, stability and operating precision, suitable for various harsh working environments.

- Completely electric drive, noiseless, zero-emission,100% maintenance-free
- Smoother maneuvering, precise positioning and comfortable operation
- Universal key components
- Intelligent self-diagnostic system
