## View products by range:

### Trailer Mounted

Low-weight and road-towable for easy, low-cost site-to-site transportation.

### Self Propelled

Compact, manoeuvrable and drivable while working at height, saving time on tasks.

### **Self Drive**

Low-weight, manoeuvrable and drivable when stowed, for faster repositioning and setup.

### **TrackDrive**

Drivable when stowed with continuous tracks for maximum traction, even on slopes.

Here at Niftylift, we understand the importance of reliable, cost-effective equipment that'll get the job done without a fuss. Our compact and low-weight articulating booms offer the maximum performance and reliability you need to deliver a high-quality service to your clients. Innovations such as SiOPS®, ToughCage, Gen<sup>2</sup> Hybrid and All-Electric Technology give Niftylift cherry pickers, access platforms, and work platforms a sizable advantage in terms of safety and environmental consciousness.

Every item in our extensive range is rigorously tested to ensure that every part of its design is optimised to the highest specifications. This means you're receiving only the best in work platform technology – guaranteed.

Find out for yourself why the world trusts Niftylift to lift their company higher!
