Vertical Masts

Enjoy the agility of the Star range of mast booms. With their compact dimensions, AC motors and straight elevation, they are extremely easy to drive in the tightest spaces both indoors and outdoors on slab surfaces. The platform extension provides additional space. Models equipped with

Vertical mast : reach everything, any time

Ideal for accessing hard-to-reach places, vertical mast lifting platforms are particularly suitable for maintenance, troubleshooting, stock control and any other handling operations in warehouses. The STAR 6 Picking vertical mast lift is particularly suitable for loading and unloading goods stored in warehouses. Vertical mast lifts can be used indoors or outdoors thanks to their non-marking tyres, which are suitable for all types of ground.

Vertical mast: a varied range to meet your needs

Haulotte designs and builds 6 to 10-meter electric vertical mast lifts with lifting equipment to meet your requirements whatever your environment and constraints. Agile, robust, reliable and very easy to use, our vertical masts alone are a performance powerhouse and are ideal for taking on tasks at height efficiently and in complete safety!
