

ARTICULATED BOOM LIFT (https://dinglisaarc.com/power/electric/)

SERIES

## BA15NE

The **BA15NE** is a compact, eco-friendly small boom lift designed for optimal performance in various working environments. Powered by a pure electric drive, it operates with zero emissions and minimal noise, making it ideal for indoor or environmentally sensitive locations. The machine offers long endurance for extended work cycles, while the foam-filled non-marking tyres ensure smooth movement without damaging floors or surfaces.

### KEY FEATURES

- **Pure Electric Drive:** Provides a noise-free, zero-emission operation, making it ideal for indoor and environmentally conscious work sites.
- **Long Endurance:** Offers extended working hours, ensuring efficiency and productivity throughout the day.
- **Foam-Filled Non-Marking Tyres:** Durable tyres that prevent damage to floors and surfaces, making it suitable for sensitive environments.
- **Compact Design:** Offers excellent maneuverability in tight spaces, ideal for areas with limited room.
