Tariff Rate Quota (TRQ) review No. TQ0077

TRQ Review – Aluzinc, aluminised flat steel, and quarto plate (Category 4 and 7)

Note to Public File – Minor correction to application document

21 January 2026

On 14 January 2026, the Trade Remedies Authority (TRA) published the application documents of the International Steel Trade Association (ISTA) for TRQ review TQ0077 concerning Aluzinc, aluminised flat steel, and quarto Plate. This publication can be accessed via this link:

<https://www.trade-remedies.service.gov.uk/public/case/TQ0077/submission/600087c7-aefb-4990-a359-138acd02f160/>

The TRA identified a clerical error concerning the document “ISTA discontinue safeguarding on plate v7 non confidential_20260113160548.pdf”. On page 8, the commodity code **7208 5120** was written as *7208 5210*.

The TRA has confirmed with this applicant that it intended to request a review of **7208 5120**. This commodity code continues to be correctly stated as **7208 5120** on page 1 of the document.

The applicant has provided the amended version of this document titled “ISTA discontinue safeguarding on plate v8 non confidential_20260121123602.pdf”, which the TRA has published alongside this notice.

The TRA has confirmed that all other relevant documents on the public file also states **7208 5120**, in accordance with the request by this applicant.

This amendment does **not** change the goods subject to review or the scope of this review.

Should you have any questions concerning this notice, please do not hesitate to contact us at TQ0077@traderemedies.gov.uk.
