Extension - Note to Public File

Time extension for submission of Pre-Sampling Questionnaires

Today, 19 June 2024, the TRA published a [Notice to the Public File](#) concerning a new deadline for Interested Parties to consider their responses and supporting evidence on whether Sustainable Aviation Fuel (SAF) should be included within the scope of this investigation to **Friday 28 June 2024**.

As Interested Parties may wish to take account of their views concerning the scope of this investigation in their Registration of Interest to case AD0058, the TRA have decided to extend the deadline for submission of Pre-Sampling Questionnaires to be in line with the new deadline concerning the Request for Information concerning scope. Therefore, the new due date for submission of Pre-Sampling Questionnaire responses is also **Friday 28 June 2024**

The TRA has determined that providing this extension does not significantly impede the progress of the investigation.

For information about this investigation, please refer to the public file at <https://www.trade-remedies.service.gov.uk/public/case/AD0058/#public-file>
