Anti-dumping duties on certain pneumatic tyres used for buses or lorries originating in the People's Republic of China

Notification of extended sample - exporters

The Trade Remedies Authority (TRA) has previously notified that the number of responses received in both the registration period and to the pre-sampling questionnaire means the TRA has limited its examination to a sample of overseas exporters.

On 7 November 2023 the TRA published a notification of proposed extended sample. We received no responses to this notice.

This notification is to inform all parties of an expansion in the previously selected sample.

The expanded sample of overseas exporters will now include all exporters registered to the case. Registered overseas producers of the like goods that did not export during the period of investigation are also required to submit exporter questionnaire responses.
