

## **Subsidy Transition Review No.TS0044**

Subsidy transition review on Biodiesel originating from Argentina

### **Notice of final sample**

#### **Overseas producer sampling**

Given the number of responses in the registration period, the Trade Remedies Authority (TRA), will limit its examination of overseas producers.

Based on the information available to the TRA, the sample will include the following 3 overseas producers. In accordance with Regulation 57(2) of The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019, the TRA may limit its examination to anything else the TRA considers it appropriate to sample and in accordance with Regulation 57(3), the TRA may use any reasonable method to determine the sample.

This sample is based upon the selection of 3 of the top 4 Argentinian companies with the largest production of Biodiesel (metric tonnes). The TRA decided not to include one of the 3 largest producers of Biodiesel (by volume) within the sample, as the company held some business relationships that were identical to another of the top 3 largest producers (by volume). The overseas producers selected are as follows:

1. Aceitera General Deheza S.A.
2. LDC Argentina
3. Viterro Argentina S.A.

Sampled overseas exporters will be expected to provide adequate responses to questionnaires and allow the TRA to verify the data provided.
