

Case AD0059

Certain engine oils and hydraulic fluids originating in Lithuania and the United Arab Emirates

Notification of sampling approach

In accordance with Regulation 57(2)(d) of The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019, the Trade Remedies Authority (TRA) will limit its examination to a sample of domestic producers. Given the number of registrations in the registration period, the TRA considers that examining all domestic producers would be unduly burdensome and would prevent the timely completion of the investigation.

Domestic producer sampling

Based on the information available to the TRA, the sample will include the following domestic producers. This sample is based on the largest volume of production as submitted in the registration documents.

Name	Production volume in the PoI (megalitres)
Paterson Enterprises Ltd	17-20
Aztec Oil	10-15
Granville Oil & Chemicals Ltd	5-10
Ferguson & Menzies Ltd	6-9

Other domestic producers have registered to the case but will not be included in the sample. They are still able to make submissions to the investigation.

Parties are invited to comment on this proposed sample via the trade remedies service by the end of **15 August 2024**. Please provide both a confidential and non-confidential response using the TRS website.
