

TRANSITION REVIEW No. TD0035

Anti-dumping duties on certain pneumatic tyres used for buses or lorries originating in the People's Republic of China

Notification of proposed sample - exporters

The number of responses received by the Trade Remedies Authority (TRA), in both the registration period and to the pre-sampling questionnaire, means the TRA will limit its examination to a sample of overseas exporters.

This notification is to inform all parties of the selected sample.

Based on the information available to the TRA, the proposed sample has been determined by selecting overseas exporters who exported the largest volume of the goods concerned from the People's Republic of China to the UK during the period of investigation (1 January 2022 to 31 December 2022).

The proposed sample of overseas exporters is listed below. Each of the companies mentioned below, within the group, will be sent a questionnaire once the sample is finalised.

- Hankook Group (including Chongqing Hankook & Jiangsu Hankook),
- Shandong Yongfeng Tyres Co Ltd,
- Shandong Haohua Tire Co Ltd.

The TRA seeks to consult and invites comment on the sample. A confidential and a non-confidential version of comments should be submitted as a general submission of evidence via the [Trade Remedies Service](#) for those registered to the case, and to TD0035@traderemedies.gov.uk for those not registered to the case, by 10 July 2023. The non-confidential version of comments received will be published on the public file.
