

**Anti-dumping investigation**  
**Case AD0075**  
**Boom lifts originating in The People's Republic of China (PRC)**

**Notification of proposed sample**

12 February 2026

Given the number of responses in the registration period, the Trade Remedies Authority (TRA) intends to limit its examination of overseas exporters and importers. The TRA is not intending to limit its examination of UK producers.

In accordance with regulation 56(4) of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations), the TRA publishes this notification to provide details of its sampling approach and the proposed samples of overseas exporters and importers. It is not intended to preclude the TRA from limiting its examination further at a later stage.

Parties are invited to comment on this proposed sample by the end of **19 February 2026**. Please provide both a confidential and non-confidential response using the Trade Remedies Service platform. The TRA will consider these comments before publishing a final sampling decision.

**UK producer sampling**

Based on the information available to the TRA, the TRA does not consider it appropriate to limit its examination to a sample of UK producers. In accordance with regulation 54(2)(b) of the Regulations, the following UK producers identified in the Application will be issued a questionnaire:

1. Niftylift Limited<sup>1</sup>
2. Snorkel Europe Limited ("Snorkel")

UK producers will be expected to provide adequate responses to the questionnaire and allow the TRA to verify the data provided.

---

<sup>1</sup> Niftylift limited is the only UK producer who has registered to the case

## Importer sampling

Based on the information available to the TRA, the TRA considers it appropriate to limit its examination to a sample of the following two importers:

1. Dingli Machinery UK Limited (“Dingli UK”)
2. LGMG Machinery U.K. Limited (“LGMG U.K”)

In accordance with regulations 56(3) and 57(3) of the Regulations, the sample is based on a reasonable method of the two importers with the largest volume of UK imports that the TRA is reasonably able to investigate.

In accordance with regulation 54(4) of the Regulations, the TRA is limiting the issuing of a questionnaire to those importers included in the sample.

Sampled importers will be expected to provide adequate responses to the questionnaire and allow the TRA to verify the data provided.

Other importers have registered to the case but will not be included in the sample. They are still able to make submissions to the investigation.

## Overseas exporter sampling

Based on the information available to the TRA, the TRA considers it appropriate to limit its examination to a sample of the following two overseas exporters:

1. Lingong Heavy Machinery Co., Ltd. (“LGMG”)  
The TRA proposes to collapse the LGMG group and its associated companies who are involved in exporting to the UK within the group will be included within the sample.
2. Zhejiang Dingli Machinery Co., Ltd (“Zhejiang Dingli”).

In accordance with regulations 56(3) and 57(3) of the Regulations, the sample is based on a reasonable method of the two overseas exporters with the largest volume of exports that the TRA is reasonably able to investigate.

In accordance with regulation 54(4) of the Regulations, the TRA is limiting the issuing of a questionnaire to those importers included in the sample.

Sampled overseas exporters will be expected to provide adequate responses to the questionnaires and allow the TRA to verify the data provided.

Other overseas exporters have registered to the case but will not be included in the sample. They are still able to make submissions to the investigation.

More information on sampling can be found in the TRA's [public guidance](#).
