Transition Review – TS0018

Countervailing duties on certain hot-rolled flat products of iron, non-alloy steel or other alloy steel originating in the People's Republic of China

Note to the Public File

1 November 2022

Incomplete questionnaire submission - Liberty Steel

Following the publication of a Notice of Initiation on 4 April 2022, the Trade Remedies Authority (TRA) is conducting a transition review (TS0018) of a UK trade remedies measure in relation to Hot Rolled Flat products of iron, non-alloy steel or other alloy steel originating in the People's Republic of China.

Liberty Steel registered its interest in this case on 22 April 2022.

The TRA has requested parties to provide non-confidential versions of the questionnaires in line with the [TRA's guidance on non-confidential information](#).

The TRA received from Liberty an incomplete non-confidential version of the questionnaire, which has been placed on the public file.

The TRA engaged and discussed with Liberty, the content of the questionnaire. Liberty has informed us that it is unable to make amendments, primarily due to other priorities, including engagement on other trade remedies cases, and constrained resources. The TRA is unable to verify the information provided in the questionnaire.

For any questions or comments, please do not hesitate to contact us at TS0018@traderemedies.gov.uk
