TRANSITION REVIEW No. TD0063

Anti-Dumping duties on Ironing Boards originating in the People's Republic of China (PRC)

Proposal to change the product control number (PCN) structure

The Trade Remedies Authority (TRA) has reconsidered the PCN structure for this review.

Following an assessment of domestic UK production, the TRA has identified the need for an additional character within the category “Iron rest” for a “Plastic rest (whether or not removable)”. This will allow for a more detailed analysis between the goods subject to review and the like goods.

The TRA has therefore updated the PCN structure for this review, which is set out below at **Annex 1**.

Should you have any questions or comments about this proposal, please contact us at TD0063@traderemedies.gov.uk by 10 November 2024.
