POTENTIAL EXTENSION OF SUSPENSION PERIOD / INITIATION OF A SUSPENSION EXTENTION REVIEW

The TRA suspended anti-dumping duties on certain hot rolled flat products of iron, non-alloy steel or other alloy steel from Ukraine on 30 August 2022, for a period of nine months. This suspension is due to expire on 30 May 2023 and the TRA may make a further recommendation to the Secretary of State to increase the duration of the extended period of suspension where it considers it is appropriate to do so. The TRA intends to consider extending the period of suspension in case **SN0033**, For more information about this case, you may refer to the public file at: www.trade-remedies.service.gov.uk/public/cases.

ISSUES FOR CONSIDERATION

The potential extension of suspension period will consider -

- whether the conditions set out in the original investigation (SR0025) have changed;
- whether the potential extension of suspension is appropriate; and
- the appropriate length of any potential suspension period.

Our [Suspension Investigations Guidance](#) provides further information regarding the investigation process.
