

TRANSITION REVIEW No. TD0027

Anti-dumping measures applying to Ceramic Tiles originating in the People's Republic of China (PRC)

Note to Public File: Error in Final Recommendation

October 2024

Following publication of its Final Recommendation on 8 October 2024, the TRA was made aware of an error in the text of the newly excluded goods description, which did not match the rationale provided in the rest of the document. This has now been rectified and we republished the amended version of the Recommendation on 18 October 2024.

For clarity, the goods now excluded from the measure are ceramic tiles which individually:

- have a largest surface area exceeding 0.36m² unless the differential relief on the largest surface exceeds 3mm, or;
- which have an edge longer than 600mm unless the differential relief on the largest surface exceeds 3mm.
