## Goods specification - Note to Public File

**Note to the public file summarising the goods concerned in relation to the case:**

**AD0059 – Certain engine oils and hydraulic fluids from Lithuania and the United Arab Emirates.**

The goods that are the subject of the investigation (the goods concerned) are:

Passenger car motor oils, heavy duty commercial vehicle oils and hydraulic oils, grades: 5W-30, 5W-40, 0W-16, 0W-20, 0W-30, 10W-40, 10W-30, 20W-50, SAE 40, SAE 50, 15W-40, ISO32, ISO46, ISO68, HV32, HV46 and HV68.

In the notice of initiation, and on the public file, grades “SAE 40” and “SAE 50” were initially recorded as “S40” and “S50”. Feedback from interested parties and contributors to the case indicated that the terms “SAE 40” and “SAE 50” may be more appropriate, and the questionnaires were updated to include these terms prior to publication.

For the avoidance of doubt, the public file will be updated to correct this error and replace the terms “S40” and “S50” with “SAE 40” and “SAE 50” respectively.

If you have any comments or questions in relation to this, please contact the case team: [AD0059@traderemedies.gov.uk](mailto:AD0059@traderemedies.gov.uk)
