Section C – Certification	5

Section A – Your company's interest in the case

To register your company's interest in this case, please complete the text boxes below. You should use this form if you are an exporter of the goods subject to review. For a definition of goods subject to review, please refer to the Notice of Initiation.

1. Please describe the role of your company in relation to the goods subject to review, like goods or directly competitive goods:

Marcegaglia Specialties S.p.A. is an Italian producer of

- stainless steel welded round tubes and pipes;
- s.s. hollow sections;
- s.s. flat bars;
- s.s. round bars;
- carbon steel round bars

falling within the product categories 25A, 25B, 26 and 27.

About 6% of Marcegaglia Specialties yearly stainless steel production is exported to the UK market.

2. Please describe your interest in this case:

Marcegaglia Specialties S.p.A. is interested to continue supplying UK distributors and users without being limited by tariff quotas or duties.

Section B – Additional information

Use the box below to provide any other relevant information which you think would be useful to help our review.

This may include:

- other parties which you think should be invited to register an interest in the case;
- scope of the review, including product categories and/or custom codes you think should be added or removed, and reasons why; or
- anything else you consider relevant.

Provided that the production capacity of UK domestic producers of products falling within the product categories 25A and 25B is not sufficient to properly supply the UK market and that, with regard to the product category 26, there is no domestic producer, Marcegaglia Specialties S.p.A. believes that the maintenance of the tariff quotas or duties may jeopardize the correct supply-chain of the UK distributors and users.

For those reasons our request is to remove the product categories 25A, 25B and 26 from the list of tariff quotas.

As alternative, given that the above mentioned product categories include both stainless steel and carbon grades, our request is to create specific relevant categories only for the products in stainless steel grades separated from the categories in carbon steel grades.

With regard to the products falling within the product category 27, Marcegaglia Specialties S.p.A. produces round bars for specific niches of the market. We aim to continue to supply those products.
