

TRANSITION REVIEW No. TF0006

Safeguard measures on certain steel products

Note to the file

Note to interested parties and contributors regarding the sharing of draft questionnaires

TRID recognises that this transition review is the first for a safeguard measure and that there are time constraints associated with this investigation that are not present in our other live transition reviews. As there are no previous public records of this type of case to help interested parties understand what we may need to ask them, and given TRID's limited ability to issue extensions as shown on the external timeline published on the TRS, we are prepared to share a draft questionnaire upon request to any registered interested party or contributor. This would be on a 'without prejudice' basis. Please contact the case team for information about this.
