TRANSITION REVIEW No.TD0034

Anti-dumping duties on steel ropes and cables originating in the People's Republic of China (including steel ropes and cables consigned from Morocco and the Republic of Korea)

Note to the file

Notification of sampling approach

Due to the small number of responses in both the registration period and to the pre-sampling questionnaire, the Trade Remedies Authority (TRA) will not limit examination of overseas exporters/importers/UK producers at this stage. It may become necessary to limit examination to a sample of these categories if further submissions are received.

This note is not intended to preclude the TRA from limiting examination to a sample of transactions for the purchase of like goods or directly competitive goods.
