

**TRANSITION REVIEW No.TS0065**  
**Countervailing duties on**  
**Biodiesel originating in Indonesia**  
**Notification of sample**

**UK producer sampling**

Given the number of responses in the registration period, the Trade Remedies Authority (TRA), will limit its examination of UK producers.

Based on the information available to the TRA, the sample will include the following 2 UK producers, from a selection of 3 UK producers registered in total. In accordance with Regulation 57(2) of The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019, the TRA may limit its examination to anything else the TRA considers it appropriate to sample and in accordance with Regulation 57(3), the TRA may use any reasonable method to determine the sample.

This sample is based upon the selection of the 2 UK producers with the largest production of biodiesel (metric tonnes) during the POI for this review (1 October 2023 to 30 September 2024). The UK producers selected are as follows:

- Greenergy Fuels Limited
- Argent Energy

Sampled producers will be expected to provide adequate responses to questionnaires and allow the TRA to verify the data provided.

This notification details the TRA's sampling for UK producers. It is not intended to preclude the TRA from limiting its examination further at a later stage.
