

Case AD0071

Hot rolled steel plate imported into the United Kingdom from the Republic of Korea

Note to Public File

Outcome of Scope Consultation

24 February 2026

On 7 January 2026, the TRA published a proposal to amend the scope of the investigation, following submissions that certain goods falling within scope of the investigation should be removed from the analysis and any potential future measure. The proposal can be viewed on the [public file](#).

The TRA received responses from four interested parties: International Steel Trade Association, POSCO, Spartan UK, and Liberty Steel Dalzell, with non-confidential versions of their comments viewable on the public file.

The TRA has determined that the evidence provided by UK producers is sufficient to conclude, for the purposes of a scope assessment, that there was UK production in the Period of Investigation covering the full scope of products as detailed in the NOI. Therefore, the TRA has decided not to amend the scope of this investigation and will not publish an amended NOI or an updated external case timeline.
