Instructions

The Trade Remedies Authority (TRA) will be carrying out a transition review of the EU trade remedy measure which will consider whether the dumping of certain ceramic tableware and kitchenware products from the People's Republic of China (PRC) would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods, and injury to the UK industry in the **like goods** would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods.

Who should complete this form?

You should complete this form if you are a **UK importer** of the [goods subject to review](#) (as defined on page 4) in this transition review.

Why are you being asked to complete this pre-sampling questionnaire?

We are seeking your cooperation as a **UK importer** of the **goods subject to review** to inform our review of the existing anti-dumping measures against Ceramic Tableware and Kitchenware (CT&K) originating in the PRC, and whether to vary (including extending the application of) or revoke the current measures.

If you are not a **UK importer** of the **goods subject to review**, please complete either relevant Pre-Sampling Questionnaire (PSQ) for producer or exporter. Alternatively, if you do not fit into any of these categories but have information that you wish to be considered during the investigation, you can complete the Other Interested Party and Contributor Registration Form.

This PSQ allows us to collect basic information and data about your company. It will also allow us to conduct preliminary analyses of the likelihood of dumping and injury continuing or recurring if the measure were to be revoked. If a large number of UK importers complete this PSQ, we will use the information provided to decide which companies to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

If we do not receive sufficient information in this PSQ or the detailed questionnaire (if requested to complete), we may be unable to use your information in the review and will have to rely on facts available to us.

Also, if you do not complete this pre-sampling questionnaire or the detailed questionnaire (if requested to complete), you could be found to be non-cooperative. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

Note about confidentiality

You will need to submit one confidential version **and** one non-confidential version of your PSQ by the due date, clearly marked either “Confidential” or “Non-confidential” in the header.

Your non-confidential version should be the same as your confidential submission, but with any confidential information redacted, including personal contact information, names and signatures.

Please see the TRA’s [public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019). All information will be securely stored.

The non-confidential version of your submission will be placed on the public file, which is available on <https://www.trade-remedies.service.gov.uk/public/case/TD0056/>.

Deadline for response

A completed PSQ (confidential and non-confidential versions) must be submitted to the TRA no later than **30 May 2024**.

If you are unable to provide a completed submission by this date and you wish to request an extension, please contact TD0056@traderemedies.gov.uk. We may grant extensions to deadlines on a case-by-case basis with a commitment to ensuring fairness to all parties. Extensions will only be granted when reasonable justification has been provided, and for a maximum period of half the original completion period (*i.e.*, five days extension in a 10-day registration period).

The scope of this transition review

Goods subject to review

This transition review covers certain ceramic tableware and kitchenware products exported from the PRC, described as:

Ceramic tableware and kitchenware, excluding ceramic condiment or spice mills and their ceramic grinding parts, ceramic coffee mills, ceramic knife sharpeners, ceramic sharpeners, ceramic kitchen tools to be used for cutting, grinding, grating, slicing, scraping and peeling, and cordierite ceramic pizza-stones of a kind used for baking pizza or bread.

These **goods** are currently classifiable within the following commodity code(s):

69 11 10 00 90

69 12 00 21 91

69 12 00 25 10

69 12 00 21 11

69 12 00 23 10

69 12 00 29 10

These commodity codes are only given for information. The **goods** are defined by the current description.

In this pre-sampling questionnaire, these goods will be referred to as the **goods subject to review** (identified by the goods description above, regardless of the commodity code under which they are imported).

To note: if you disagree with the description of the goods subject to review within the scope of this transition review, you can comment on this in section [D2 – Scope](#).

Like goods

In this PSQ, the ‘**like goods**’ is defined as goods that are produced in the UK or imported into the UK from a country other than the PRC, and which are like the ‘**goods subject to review**’ in all respects, or with characteristics closely resembling them.

Recalculation in transition reviews

Please note that the TRA does not intend to assess whether it is necessary to recalculate the anti-dumping amounts in this transition review unless registered parties to the case provide compelling evidence that it may be appropriate to recalculate. If this is the case, please provide the information as part of this submission in section [D6 – Anything else](#).

Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or like goods.

For more information, you may refer to the Notice of Initiation published at: <https://www.trade-remedies.service.gov.uk/public/case/TD0056/>.

Section A – Activities of your company and any associated parties

A1 – Your company’s activities

To determine your company’s role for the purpose of this transition review, please select the activity / activities of your company below. For a definition of **goods subject to review / like goods** please refer to the section above on [‘the scope of this transition review’](#).

importer of the **goods subject to review** in the UK

other (please give details below)

If you have selected ‘other’, please describe the role of your company with regards to the **goods subject to review** or **like goods**:

N/A

A2 – Associated parties and operational links

Please give details of all associated parties involved with your company in the production and sales (export and/or domestic) of the **goods subject to review** or **like goods** during the Period of Investigation (POI). The POI can be found on the title page of this document. Both natural persons (individuals) and legal persons (e.g. companies) are considered to be associated where they meet the definition of ‘Related Persons’ in [regulation 128 of the Customs \(Import Duty\) \(EU Exit\) Regulations 2018](#).

Examples of activities with associated parties could include production, domestic sales, export sales, and / or further processing of the **like goods** (i.e., companies owned by the same parent group).

A3 – Your position in respect of this measure

Please describe whether you think the anti-dumping measures should be varied (including extended) or revoked and why?

We believe the measures should be revoked or varied. We are not in any way using Chinese factories to dump low value products into the UK or EU to the disadvantage of other manufacturers.

We use Chinese and other overseas suppliers to supplement our products where we do not have the manufacturing capability or the flexibility to make different body types that our customers request.

Our company are committed to UK manufacture.

For the above reasons, we want to discuss if there is any opportunity to avoid or reduce the level of ADD when we can clearly demonstrate that our company is not in any way using imports from China to flood the market.

Section B – Details of companies you import from

Please provide the contact details for each individual company from which you import. Please confirm in the final column if we can contact these companies.

Exporter/supplier name	Address	Contact details	May we contact? yes/no

+ Add additional rows as required

Section C – Sales, imports and domestic purchases

C1 – Total company revenue

Please provide your company’s total revenue and the revenue of the **goods subject to review**:

	Value in GBP (£)
Total revenue of your company during the POI	£41m - £48m
Total revenue of your company for the goods subject to review during the POI	£18m - £21m

C2 – Your imports of the goods subject to review

Please provide the total volume and value of the **goods subject to review** imported by your company from **the People’s Republic of China** during the POI:

	Volume*		Value in GBP (£)
	kg	units	
The goods subject to review imported into the UK during the POI <i>(Sum of next three rows should match volume/value of this row)</i>	2,700,000 - 3,060,000	285,000 – 330,000	13,000,000 – 15,000,000
The goods subject to review imported into the UK during the POI and resold in the UK	2,300,000 – 2,600,000	245,000 – 280,000	11,200,000 – 13,000,000
The goods subject to review imported into the UK during the POI and consumed by your own company	0	0	0
The goods subject to review imported into the UK during the POI and exported	400,000 – 460,000	40,000 – 50,000	1,800,000 – 2,000,000

* Note: volume by mass preferably, else by number of units

Please provide the total volume and value of the **like goods imported** by your company from **all other countries** during the POI:

	Volume*		Value in GBP (£)
	kg	Units	
The like goods imported into the UK during the POI <i>(Sum of next three rows should match volume/value of this row)</i>	1,000,000 – 1,150,000	140,000 – 160,000	5,200,000 – 6,100,000
The like goods imported into the UK during the POI and resold in the UK	630,000 – 730,000	90,000 – 105,000	3,700,000 – 4,100,000
The like goods imported into the UK during the POI and consumed by your own company	0	0	0
The like goods imported into the UK during the POI and exported	370,000 – 420,000	50,000 – 55,000	1,500,000 – 2,000,000

* Note: volume by mass preferably, else by number of units

C3 – Like goods purchased from a UK producer

If you have also **purchased like goods** from a **UK producer** during the POI, please provide the total sales volume and total sales price value of your purchases in the table below.

	Volume*		Value In GBP (£)
	kg	units	
Like goods purchased from UK producers during the POI <i>(Sum of next three rows should match volume/value of this row)</i>	11,000 – 12,500	3,000 – 3,500	160,000 – 190,000
Like goods purchased from UK producers during the POI and resold in the UK market	11,000 – 12,500	3,000 – 3,500	160,000 – 190,000
Like goods purchased from UK producers during the POI and consumed by your own company	0	0	0
Like goods purchased from UK producers during the POI and exported	0	0	0

Please note: if registered parties to the case provide compelling evidence that it may be appropriate to recalculate, our full questionnaires may require detailed transaction by transaction listings of all sales of the **goods subject to review** and **like goods** during the POI. Further to this, we may also require information related to their respective costs.

Please can you confirm whether you will be able to provide this information to the level of detail required?

Yes

No

Section D – Additional information

D1 – Market prices in the PRC domestic and export market, and price comparison to the UK market

One of the factors the TRA considers in our analyses is a comparison between the UK domestic prices of the **like goods**, the prices of the **like goods** sold domestically in the PRC, and prices of the **goods subject to review** (exported from the PRC to the UK). To conduct this comparison, we need to understand the PRC market prices of the **like goods** and the **goods subject to review**.

For our analyses, are you able to provide examples of the market price of the **goods subject to review** exported from the PRC to the UK, and the **like goods** produced and sold within the PRC – and are you able to support this information with any sources that you consider to be relevant to this investigation?

The products are not sold directly to the domestic PRC market. Any sales to the PRC market are through the routine ecommerce website.

Compared to the UK market prices of the **like goods**, can you provide any details (and where possible, any sources) that can explain any differences between UK market, and overseas export market prices? This could include, but not be limited to, product quality or production costs.

Raw materials and energy prices are more expensive in the UK compared to other global markets.

D2 – Scope

Please review the scope of this transition review on [page 4](#). Do you consider the description of the **goods subject to review** to be suitable compared to the like goods produced by the UK industry?

The scope of this transition appears to comparable to UK made like goods

Are there goods you feel should be included within the scope, or excluded from the current scope?

We feel that the current scope does not need amending at present

D3 – Product Control Numbers

The TRA uses product control numbers (PCNs) to define and distinguish the different types of products that fall under the goods description above.

PCNs, which come in the form of an **alphanumeric code**, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

We have created a draft PCN table which is set out in [Annex 1](#) at the end of this document.

Please review the draft PCN structure for this investigation and include any comments on the PCN structure in the box provided below:

No comment to make

D4 – Other interested parties

If you believe there are other interested parties that should receive a questionnaire, please provide their organisation name and website details below. This could include other importers, producers, exporters, or any other party who may have a contribution to make to the investigation relating to CT&K.

Organisation name	Website

D5 – Economic Interest Test

While conducting a transition review, to make a recommendation to vary (including extending) the anti-dumping measure, we must conduct the Economic Interest Test (EIT). The purpose of the EIT is to determine whether the implementation of the proposed trade remedy measure is in the wider economic interest of the UK.

In order to obtain a complete picture of the UK market, could you please provide us with details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies buying your **like goods**).

We would like to use any contact details you provide to get in touch with these companies, although there is no obligation on you to provide this information.

	Company name	Location (city, country)	Contact information (email/telephone)	Relationship
1				
2				
3				

D6 – Anything else

Please use the box below to provide information about anything else you consider relevant to this transition review (e.g., compelling evidence that it may be appropriate to recalculate the anti-dumping amounts; comments around a particular market situation (PMS) in the PRC):

The Group imported 3,014 tonnes of porcelain and earthenware products from the PRC during the POI. The UK ceramic sector imported 76,673 tonnes and porcelain and earthenware in Q4 2023 alone. It is thought that the quantities detailed in section C would not have a significant impact on the overall UK market.

Now you have reached the end of this questionnaire please ensure that you have prepared a **confidential and non-confidential** version and indicated the status of each within the header. The non-confidential version should redact ALL personal contact information, names, signatures, and exact sales quotes. Redacted figures should be replaced with a range where possible. Please return both versions to the TRA using the Trade Remedies Service (trade-remedies.service.gov.uk).

If you have any questions or require further guidance, please contact the case team at the email provided.
