Instructions

The Trade Remedies Authority (TRA) will be carrying out a transition review of the EU trade remedy measure which will consider whether the dumping of imports of Bicycles and certain bicycle parts originating in the People's Republic of China (PRC) would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods, and injury to the UK industry in the like goods would be likely to continue or recur if the dumping duty were no longer applied to those goods.

Who should complete this form?

You should complete this form if you are a **UK producer** of the like goods (as defined on page 5) in this transition review.

Why you are being asked to complete this pre-sampling questionnaire?

We are seeking your cooperation as a **UK producer** of the like goods to inform our review of the existing anti-dumping measures against Bicycles and certain bicycle parts originating in the People's Republic of China, and whether to vary (including extending the application of) or revoke the current measures.

If you are not a **UK producer**, please complete either relevant Pre-Sampling Questionnaire (PSQ) for importer or exporter. Alternatively, if you do not fit into any of these categories but have information that you wish to be considered during the investigation, you can complete the Other Interested Party and Contributor Registration Form.

This PSQ allows us to collect basic information and data about your company. It will also allow us to conduct preliminary analyses of the likelihood of importation of dumped goods and injury continuing or recurring if either measure were to be revoked. If a large number of UK producers complete this PSQ, we will use the information provided to decide which companies to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

If we do not receive sufficient information in this PSQ or the detailed questionnaire (if requested to complete), we may be unable to use your information in the review and will have to rely on facts available to us.

Note about confidentiality

You will need to submit one confidential version **and** one non-confidential version of your PSQ by the due date, clearly marked either "Confidential" or "Non-confidential" in the header.

Your non-confidential version should be the same as your confidential submission, but with any confidential information redacted, including personal contact

information, names and signatures. Figures can be replaced with appropriate ranges.

Please see the TRA's [public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019). All information will be securely stored.

The non-confidential version of your submission will be placed on the public file, which is available on

<https://www.trade-remedies.service.gov.uk/public/case/TD0061/>.

Deadline for response

A completed PSQ (confidential and non-confidential versions) must be submitted to the TRA by no later than **6 September 2024**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact TD0061@traderemedies.gov.uk. Extensions will only be granted with reasonable justification provided, and for a maximum period of half the original completion period (i.e., five days extension in a 10-day registration period). The TRA's guidance on extension requests can be found [here](#).

Like goods

In this PSQ, the ‘like goods’ are defined as goods that are produced in the UK or imported into the UK from a country other than PRC (and for the case of category 1 goods, other than Cambodia, Indonesia, Malaysia, Pakistan, the Philippines, Sri

This PSQ will ask for information about your company's production, imports and sales of the like goods.

Recalculation in transition reviews

Please note that the TRA does not intend to assess whether it is necessary to recalculate the anti-dumping amount in this transition review unless registered parties to the case provide compelling evidence that it may be appropriate to recalculate. If this is the case, please provide the information as part of this submission in section [C7 – Anything else](#).

Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or the like goods.

C2 – Particular Market Situation

If you have any concerns or information about the possible existence of a particular market situation in the PRC, please provide details in the box below. This can include examples such as:

- Prices are artificially low
- There is significant barter trade (e.g., goods exchanged for other goods)
- Prices reflect non-commercial factors; or
- Anything else

We know that the production of bikes in PRC is lower than in the UK.
 We have had quotes form companies in the PRC for one example of our bikes.
 UK Cost is [REDACTED]
 PRC is [REDACTED]
 Cambodia is [REDACTED]

These are significantly cheaper them we can produce them.
 One of the reasons is that the welfare of workers is not as good as Europe.
 Workers are forced to works 6 days per week, where the UK do not do this.
