## Instructions

The Trade Remedies Authority (TRA) will be carrying out a transition review of the EU trade remedy measure which will consider whether the dumped imports of bicycles and certain bicycle parts originating in the People's Republic of China (PRC) would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods, and injury to the UK industry in the like goods would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods.

### Who should complete this form

You should complete this form if you are an overseas exporter of the goods subject to review (as defined on page 4) in this transition review.

### Why you are being asked to complete this pre-sampling questionnaire?

We are seeking your cooperation as an overseas exporter of the goods subject to review to inform our review of whether the existing anti-dumping measure against bicycles and certain bicycle parts originating in the People's Republic of China and whether to vary (including extending the application of) or revoke the current measure.

If you are not an overseas exporter, please complete either the relevant Pre-Sampling Questionnaire (PSQ) for UK producers or UK importers. Alternatively, if you do not fit into any of these categories but have information that you wish to be considered during the investigation, you can complete the Other Interested Party and Contributor Registration form.

This PSQ allows us to collect basic information and data about your company. It will also allow us to conduct preliminary analyses of the likelihood of the importation of dumped goods and injury continuing or recurring if the measure were to be revoked. If a large number of overseas exporters of the goods subject to review from the PRC complete this PSQ, we will use the information provided to decide which companies to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

If you do not complete this pre-sampling questionnaire or the detailed questionnaire, you could be found to be non-cooperating. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

## Note about confidentiality

You will need to submit one confidential version **and** one non-confidential version of your PSQ by the due date, clearly marked either “Confidential” or “Non-confidential” in the header.

Your non-confidential version should be the same as your confidential submission, but with any confidential information redacted, including personal contact information, names and signatures. Figures can be replaced with appropriate ranges.

Please see the TRA’s [public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019). All information will be securely stored.

The non-confidential version of your submission will be placed on the public file, which is available on:

<https://www.trade-remedies.service.gov.uk/public/case/TD0061/>.

## Deadline for response

A completed PSQ (confidential and non-confidential versions) must be submitted to the TRA by no later than **6 September 2024**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact [TD0061@traderemedies.gov.uk](mailto:TD0061@traderemedies.gov.uk). Extensions will only be granted with reasonable justification provided, and for a maximum period of half the original completion period (i.e., five days extension in a 10-day registration period). The TRA’s guidance on extension requests can be found [here](#).

The commodity codes for both categories of goods are only given for information. The goods are defined by the current descriptions.

In this pre-sampling questionnaire, these goods will be referred to as the goods subject to review (identified by the goods description above, regardless of the commodity code under which they are imported).

To note: should you disagree with the description of the goods subject to review within the scope of this transition review, you can comment on this in section D3, [‘Scope’](#).

## Like goods

In addition to seeking information about your company's export sales to the UK of the goods subject to review, this pre-sampling questionnaire will also ask about your sales of like goods. These like goods are defined as goods which are like the goods subject to review in all respects, or with characteristics closely resembling them, and are sold in your domestic market and/or to third countries.

## Recalculation in transition reviews

Please note that the TRA does not intend to assess whether it is necessary to recalculate the antidumping amount in this transition review unless registered parties to the case provide compelling evidence that it may be appropriate to recalculate. If this is the case, please provide the information as part of this submission in [section D7 'Anything else'](#).

**Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or like goods.**

For more information, you may refer to the Notice of Initiation published at: <https://www.trade-remedies.service.gov.uk/public/case/TD0061>.

PCNs, which come in the form of an **alphanumeric code**, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

We have created a draft PCN table (for category 1 goods) and enclose this here for you now.

## Section C – Individual anti-dumping amount

Please note, as per the section '[recalculation in transition reviews](#)', the TRA does not intend to assess whether it is necessary to recalculate the anti-dumping amounts in this transition review unless registered parties to the case provide compelling evidence that it may be appropriate to recalculate. If this is the case, please provide the information as part of this submission in section D7 'Anything else'.

In the event that the TRA decides to recalculate, and samples overseas exporters, and you are **not** selected for this sample, but have completed a detailed questionnaire, you may become eligible for an individual anti-dumping amount. Please indicate whether you would complete a full questionnaire in these circumstances below:

- Yes

- No

If you do not choose to complete a detailed questionnaire, you will not be eligible for an individual anti-dumping amount. Your anti-dumping amount will be determined based on the amounts imposed on the overseas exporters in the sample.

### **Please note:**

If we recommend that a trade remedy measure applies following this review, and you have requested an individual anti-dumping amount, please note that you will be required to supply the necessary information within the given timeframe for us to calculate this for you.

The TRA must accept an overseas exporter's request for an individual anti-dumping amount and calculate an individual amount, providing that:

- the information required is complete and submitted on time; and
- the number of requests for individual calculations does not unduly burden the review and risk delaying its conclusion.

## Section D – Additional information

### D1 – Other interested parties

If you believe there are other interested parties that should receive a questionnaire, please provide their organisation name and website details below.

Organisation name	Website

### D3 – Economic Interest Test

picture of the UK market, could you please help by providing us with details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies buying your like goods). Please confirm in the final column if we are able to contact these companies.

replaced with a range where possible. Please return both versions to the TRA using the Trade Remedies Service ([trade-remedies.service.gov.uk](https://trade-remedies.service.gov.uk)).
