## ANTI-DUMPING INVESTIGATION No. AD0062

### Anti-dumping investigation – Tin Mill Products from the People’s Republic of China (PRC)

#### Note to Public File – Registration of third country producers

06 December 2024

On 21 November 2024, the Trade Remedies Authority (TRA) published a [note to public file](#) outlining our proposal to use Brazil as a representative third country should it be required. We invited parties to submit any comments on this choice by 5 December 2024.

Further to this note, we would like to invite producers in Brazil to participate and assist with the investigation by providing certain sales and cost data.

We will treat this information as confidential. We will also ask for a non-confidential version or summary of the information provided, so that we can publish this on our public file.

If multiple producers choose to participate, we may use an appropriate sampling methodology to select who to involve further.

If you are a producer in Brazil and would like to participate in the investigation, please register your interest by completing and submitting a Third Country Producer Pre-Sampling Questionnaire (PSQ) via the [Trade Remedies Service](#) by **20 December 2024**. A copy of the relevant Third Country Producer PSQ is attached with this note.

You can find more information about our investigations processes in our online [Trade Remedies Guidance](#). Should you have any questions or comments, please do not hesitate to contact us at [AD0062@traderemedies.gov.uk](mailto:AD0062@traderemedies.gov.uk).
