TS0069 - Note to the public file: publication of a revised version of a pre-sampling questionnaire response

On 15 April, the Trade Remedies Authority (TRA) published the pre-sampling questionnaire (PSQ) and registration form responses received, including two submissions deemed deficient¹ due to over-redaction of information in the non-confidential response.

At this stage, we stated that we would continue to seek revised submissions from the two parties for which we published the deficient PSQ responses.

We have since received such a revised submission from one of these parties, GRP Solutions Ltd, which we have assessed as being sufficient. The sufficient response is published alongside this note, and supersedes the previously published deficient response from the party.

Please contact TS0069@traderemedies.gov.uk if you have any questions or comments relating to this review.
