BEIJING, Sept. 15 (Xinhua) -- Recently, the General Office of the Central Committee of the Communist Party of China issued the "Opinions on Strengthening the United Front Work of the Private Economy in the New Era" and issued a notice requiring all regions and departments to seriously implement it in conjunction with the actual situation.

The main contents of the Opinions on Strengthening the United Front Work of the Private Economy in the New Era are as follows.

Since the reform and opening up, China's private economy has continued to develop rapidly, and the Party's united front work in the private economy has continued to develop and innovate. Since the 18th Party Congress, the Party Central Committee, with Comrade Xi Jinping as the core, has put forward a series of new ideas and new strategies and taken a series of major initiatives to guide and promote the united front work in the private economy has made remarkable achievements. At the same time, it should also be seen that socialism with Chinese characteristics has entered a new era, the scale of the private economy continues to expand, the risks and challenges have increased significantly, the values and interests of people in the private economy are increasingly diverse, the united front work in the private economy is facing new situations and new tasks. In order to thoroughly implement the major decisions and plans of the Party Central Committee, to further strengthen the leadership of the Party's united front work on the private economy, better the wisdom and strength of the private economy to achieve the goal of the great rejuvenation of the Chinese nation, the following views are put forward.

## I. Significance

(A) strengthen the united front work of the private economy is an important way to achieve the party's leadership of the private economy. Private economy as an intrinsic element of our economic system, is always an important economic foundation to adhere to and develop socialism with Chinese characteristics; private economic people as our own people, is always an important force that our party must unite and rely on for long-term governance. Fully understand the importance of the private economy to China's economic and social development, fully understand the existence and development of the private economy of long-term, inevitable, to promote a new era of innovation and development of the united front work of the private economy, is conducive to continuously enhance the party's leadership of the private economy, the majority of the private economy more closely united around the party, cohesion of the majestic power to build the Chinese dream.

(2) strengthen the united front work of the private economy is an important element in the development and improvement of the socialist system with Chinese characteristics. Adhere to and improve the socialist system with Chinese characteristics, promote the modernization of the national governance system and governance capacity, must always adhere to and improve China's basic economic system, unswervingly consolidate and develop the public sector economy, unswervingly encourage, support and guide the development of the non-public sector economy. Doing a good job in the united front work of the private economy is conducive to stimulating the enthusiasm and initiative of people in the private economy in deepening reform, expanding openness and participating in national governance, giving play to the decisive role of the market in the allocation of resources, giving better play to the role of the government, and fully demonstrating the advantages of the system of socialism with Chinese characteristics.

(C) strengthen the united front work of the private economy is to promote the high-quality development of the private economy is an important guarantee. Deepen the supply-side structural reform and achieve high-quality economic development, private enterprises urgently need to accelerate the transformation and upgrading, and improve the overall quality of the private entrepreneurial team. Strengthen the united front work of the private economy, is conducive to guide the private economy to firm confidence in development, improve the ability to innovate, encourage and support private enterprises to change the mode of development, adjust the industrial structure, change the growth momentum, and promote the better development of the private economy.

## II. General requirements

(D) guiding ideology. Guided by Xi Jinping Thought on Socialism with Chinese Characteristics in the New Era, fully implement the 19th CPC National Congress and the second, third and fourth plenary sessions of the 19th CPC Central Committee, closely focus on the overall layout of "five in one", coordinate the advancement of the "four comprehensive" strategic layout. Comprehensively improve the party's ability to lead the united front work of the private economy, effectively strengthen the united front work of the private economy, education to guide the private economy to enhance the "four consciousness", firm "four self-confidence", to achieve the "two maintenance", unswervingly listen to the party, follow the party, to achieve the "two

hundred years” goal, to achieve the great rejuvenation of the Chinese nation of the Chinese dream to make greater contributions.

(E) the basic principles. Adhere to the party's leadership of the united front work on the private economy, always from a political and overall planning to promote the work; adhere to the “two unwavering”, to further enhance the party's leadership and cohesion of the private economy; adhere to the construction of pro-business relations, optimize the business environment, and promote the formation of a good political ecology; adhere to the trust, unity, service, guidance, education policy, correctly handle the relationship between consistency and diversity, one hand to encourage and support, the other hand to focus on education and guidance, and constantly improve the political consensus of the private economy under the leadership of the party on the road to socialism with Chinese characteristics, 引导、教育方针，正确处理一致性和多样性关系，一手抓鼓励支持，一手抓教育引导，不断增进民营经济人士在党的领导下走中国特色社会主义道路的政治共识。

### Third, strengthen the ideological and political construction of the private economy

Hold high the banner of patriotism and socialism, increase political leadership and ideological guidance, and constantly build a firm foundation for the ideological and political work of the private economy.

(vi) consolidate and expand political consensus. Education and guidance of private economic people with Xi Jinping thought of socialism with Chinese characteristics in the new era to arm the mind, guide practice, in the political position, political direction, political principles, political path with the Party Central Committee to maintain a high degree of consistency, always do political understanding. Further strengthen the party building work of private enterprises, and effectively play the role of the party's fighting fortress and party members of the pioneering role. Vigorously publicize the Party Central Committee on the development of private economic policies, to further promote ideological and theoretical innovation, and timely response to the concerns of the majority of private economic thought. Party united front work departments at all levels should implement the ideological work responsibility system in the field of private economy, so that they can be responsible for the land, responsible for the land and do their duty.

(vii) deepen education on ideals and beliefs. Continue to carry out in-depth education and practice activities of ideals and beliefs, innovative forms of education and discourse system, and constantly expand the coverage and enhance the effectiveness. Relying on the old revolutionary areas, poverty-stricken areas, the front areas of reform and opening up and other thematic education demonstration bases, strengthen the state of the world and the state of the party education, guide the private economy to continuously enhance the Communist Party of China and socialism with Chinese characteristics of political identity, ideological identity, emotional identity. Play the role of party members of private entrepreneurs, private economic representatives in the education of ideals and beliefs, fully mobilize the subjective initiative of the majority of private economic people to strengthen self-learning, self-education, self-improvement.

(H) increase the ideological guidance. Guide the private economy to enhance self-discipline, build a solid ideological and moral defense, strict regulation of their words and actions, cultivate a healthy interest in life, and shape a good public image. Improve

Friendship and friendship, heart-to-heart exchange system, make friends with a wide range of friends and friends, to build a backbone of private economic people who can be relied upon and used at critical moments. In accordance with the principle of "unity-criticism-unity", expand the unity surface, reflecting inclusiveness.

(ix) advocate for the "four models". Strengthen the values to lead, guide the private economy to establish a correct view of the country, the rule of law, career, wealth, do patriotic and respectful, law-abiding business, entrepreneurship and innovation, return to society model. Deepen the propaganda and education of the Chinese dream, guide the private economy to establish family sentiment, to industry, industrial strength as their responsibility, down-to-earth officers, modest and low-key behavior. Focus on the role of typical cases of warning, regular rule of law publicity and warning education, build the bottom line of compliance with the law, advocate credibility, trustworthiness, trustworthiness, and constantly improve the private economic people rule of law and moral standards. Vigorously promote the spirit of good entrepreneurs and craftsmanship, fully stimulate the vitality of innovation and creative potential. Advocate a balance between righteousness and profit, the concept of righteousness first, adhere to the idea of getting rich, rich and think about progress, conscientiously fulfill their social responsibilities, vigorously build harmonious labor relations, actively participate in the honorable cause, precision poverty alleviation and public charity, overcome hedonism and extravagance, to be rich and virtuous, rich and love, rich and responsible.

#### Fourth, the construction of high-quality private economic representatives of the team

Adhere to the principle of party-controlled talent, follow the law of growth of private economic people, to improve the quality, optimize the structure, play a role in the goal of building a high-quality, responsible for the private economic representatives team.

(J) clear scope of work. United Front work to all private enterprises and the private economy, the work mainly includes the main contributors to private enterprises, the actual controller, the main operators of private enterprises holding shares, private investment institutions natural majority shareholders, private enterprises and private economic people as the main body of social groups in the field of industry and commerce, the main person in charge of the relevant social service institutions, private intermediaries, the main partners. Hong Kong and Macao business people who invest in the mainland, a representative of the individual businessmen.

(xi) improve the selection mechanism. Expand the vision of selection, taking into account different regions and industries, large and medium-sized enterprises and small and micro enterprises, the establishment of a database of private economic representatives and talent pool. Broaden the talent discovery channels, play the role of the talent department, the United Front Work Department, industry departments in charge, and build a talent work system to adapt to the healthy growth of the private economy. Optimize the structure of the representative team, appropriate to the strategic emerging industries, high-tech industries, advanced manufacturing, modern services, modern agriculture and other fields, training and growth of the private economy firmly follow the party, single-mindedly seeking development of the team.

(XII) strengthen education and training. Do a good job of private economic representatives team building planning, the formation of a standardized and regular education and training system. Give full play to the non-public sector economic figures excellent socialist cause of Chinese characteristics to recognize the role of incentives, to further expand its social impact. To promote the excellent traditional culture and excellent entrepreneurial spirit as the main content, strengthen the education and training of private entrepreneurs. Local party schools at all levels (Administrative College) pay attention to strengthen the education and training of party members of the private economy. Adhere to political standards, actively and steadily do a good job in the development of party members in the private economy representatives of the best elements of the work, the political quality of good, high public recognition, in line with the conditions of party members of the private economy representatives to be absorbed into the party in a timely manner. The unit does not have a party organization, the party committee (party group) organization and personnel departments at the county level or above can directly do a good job of contact training work.

(XIII) regulate the political arrangements. Adhere to the ideological and political strength, strong industry representation, political participation, good social credibility of the selection criteria, strict political clearance of candidates and compliance with the law, and in accordance with the provisions of the enterprise party organizations and all relevant parties to seek advice in advance. Improve the comprehensive evaluation system of private economic representatives to ensure the quality of selection. Do a good job of private entrepreneurs as the chairman of the provincial Federation of Industry and Commerce pilot work. Steadily do a good job recommending outstanding private entrepreneurs as the people's congresses at all levels, the CPPCC Standing Committee composition of the work of candidates, to keep the entrance gate. Carry out the employment of private entrepreneurs as special inspectors, special inspectors work. Guide private economic representatives to strengthen the sense of fulfillment of duties and responsibilities, the establishment of a sound performance assessment system and withdrawal mechanism.

(XIV) increase the training of the younger generation. Develop and implement a plan to promote the healthy growth of the younger generation of private economic people, increase education and training efforts. Play the role of the old generation of private entrepreneurs to help each other, vigorously promote the traditional virtues of the Chinese nation, focusing on family, family education and family style construction, guide the younger generation to inherit and carry forward the glorious tradition of listening to the Party, follow the Party, and strive to achieve the cause of the old and new handover and orderly inheritance.

#### V. Support services for the high-quality development of the private economy

Adhere to the center, serve the overall situation, and promote the high-quality development of the private economy, is the united front work of the private economy is the right thing to do, is an important criterion to measure the effectiveness of the work.

(xv) promote the practice of the new development concept. Strengthen the situation and policy education, vigorously select advanced models, guide the private economy in accordance with the new development concept to plan and promote enterprise reform and development, make full use of the various types of industry-university-research-use docking platform set up by the government to play an active role in the transformation of private enterprises in scientific and technological innovation and achievements. In-depth investigation and research, timely reflect and promote the resolution of the transformation and upgrading of private enterprises facing institutional and institutional barriers. Guide the private economy to adhere to the steady progress, adhere to industry, do strong main business, strengthen bottom-line thinking, enhance risk awareness, and effectively prevent and resolve business risks, especially

financial risks.

(XVI) to encourage participation in major national strategies. Relying on the United Front organizations to mobilize people in the private economy to participate in the innovation-driven development strategy and other major national strategies, in the service of the overall situation of national economic construction to achieve business development, to enhance the ideological and career pattern. Strengthen exchanges and cooperation with key countries and regions in the field of industry and commerce and their institutions in China, and give full play to the role of the Federation of Industry and Commerce in the relevant international cooperation mechanisms. Guide private enterprises to actively participate in the “Belt and Road” construction, consciously safeguard national interests, and establish a good image of China's private enterprises.

(xvii) support to join the comprehensive deepening of reform. Guide the private economy to correctly treat the reform brought about by the adjustment of interests, understanding reform, support reform, participation in reform, for the comprehensive deepening of reform to build wise words, offer pragmatic strategies. Encourage private enterprises to participate in the mixed ownership reform. Guide private enterprises to improve the corporate governance structure and explore the establishment of a modern enterprise system with Chinese characteristics. Promote private enterprises to take the initiative to strengthen exchanges and cooperation with world-class enterprises and excellent state-owned enterprises, and constantly improve their operational capacity and management level.

(18) continue to optimize the business environment. To promote fair competition in the market, equal protection of property rights as the key, and promote the construction of market-oriented, rule of law, international business environment. Education to guide the private economy to establish legal awareness, adhere to law-abiding business, consciously uphold the rules of a fair, open and transparent market. Strengthen the private economy statistics and monitoring and analysis, and vigorously promote innovation in service management. Fully play the advantageous role of the Federation of Industry and Commerce and the Chamber of Commerce, actively participate in the evaluation of the business environment, take the initiative to cooperate with the relevant departments to carry out legal screening and correction of wrongful and unjust cases against the property rights of private enterprises, prevention and disposal of arrears of private enterprises accounts and other work.

#### **Sixth, the establishment of a sound system of communication and consultation between the government and enterprises**

Promote the construction of a clean government-business relationship is an important task of the United Front work in the private economy. Relying on the United Front to carry out government-enterprise communication and consultation, is a key move to build a pro-clear government-business relationship.

(XIX) standardize the content of communication and consultation. Including the economic situation and private economic development situation analysis and diagnosis, economic and social development and industrial development planning, annual economic work deployment, important reform initiatives and enterprise-related policies, important enterprise-related laws and regulations to develop and amend, optimize the business environment, build pro-clear government-business relations, the development of private enterprises facing universal problems, key backbone private enterprises risk prevention and crisis management.

(xx) innovative forms of communication and consultation. Party committees and governments at all levels and relevant departments on matters of consultation in advance to listen to the views and suggestions of private enterprises and industry associations and chambers of commerce representatives. Party committees and governments at all levels are mainly responsible for comrades through the private enterprises and industry associations and chambers of commerce representatives to talk about the situation, focus on the development of difficult issues, to discuss solutions, and to establish and improve the communication results of supervision and feedback mechanism. Establish a special research system for private economy representatives, the annual focus of research and study, party and government leaders and relevant departments to listen carefully to the views and suggestions put forward in the research. Private economy accounts for a relatively large number of places, the party committee and government held economic work conference and meetings involving the development of the private economy, the National People's Congress to develop and amend relevant local laws and regulations, private enterprises and industry associations and chambers of commerce representatives can be invited to participate. Relevant departments to develop industry standards and norms, generally should be entrusted to industry associations and chambers of commerce to put forward their views.

(xxi) to strengthen the Chamber of Commerce and private enterprises contact services. The establishment of the party and government leading cadres to contact the Chamber of Commerce system, to industry, professional chambers of commerce and townships, street chambers of commerce as the focus, the Chamber of Commerce to the party committee and government to reflect the situation, the proposed channels. Standardize the leading party and government cadres and private economic contacts, the development of positive and negative list, to encourage cadres to take the initiative, lean forward to serve, and urge cadres to keep the bottom line, to prevent integrity risks, to do **“pro”** and degree, **“clean”** and for. The United Front Work Department, the Federation of Industry and Commerce should proactively go deep into private enterprises, timely reflect and help solve difficulties and problems.

(22) improve the mechanism for reflecting the demands of private enterprises and safeguarding their rights and interests. Guide the private economy in accordance with the law to rationally reflect the demands, safeguard rights and interests. Lawfully maintain the normal order of business, respect and protect the legitimate personal and property rights and interests of entrepreneurs. Sound mediation, arbitration, litigation and other diversified dispute resolution mechanisms, timely and effective resolution of civil and commercial disputes of private enterprises.

#### Seven, the effective role of the Federation of Industry and Commerce and the Chamber of Commerce

The Federation of Industry and Commerce and its chambers of commerce is an important organizational support for the united front work of the private economy. We should further promote the reform and construction of the Federation of Industry and Commerce, cultivate and develop chamber of commerce organizations with Chinese characteristics, and promote effective coverage of the united front work to chamber of commerce organizations.

(23) Promote the reform and development of the Federation of Industry and Commerce. Around the promotion of **“two healthy”** work theme, adhere to the political establishment, unity will be established, service will be prospering, reform will be strong, and actively explore the advantages of united front, economic, civil organic unity of the organizational system, operational mechanisms and activities, and constantly enhance the cohesion of the Federation of Industry and Commerce, executive power, influence. Fully play the role of the Federation of Industry and Commerce in the ideological and political construction of the private economy, the role of the main channel in the orderly political participation of the private economy, the role of services in the reform and development of private enterprises, in the protection and improvement of people's livelihood, innovation in social governance, the role of democratic supervision in the equal protection of property rights in accordance with the law, and strive to build the Federation of Industry and Commerce **“private economy We will strive to make the Federation of Industry and Commerce a “home for the private economy”**. Actively explore effective ways to better utilize the function of the Federation as a civil chamber of commerce (Chamber of Commerce). Innovative services, training and rights protection platform carrier, accelerate the construction of the **“online Federation of Industry and Commerce”** to further enhance the overall effectiveness of the work.

(24) promote the effective coverage of the United Front work to the Chamber of Commerce organizations. Strengthen the party building work of the chambers of commerce and industry affiliated with the Federation of Industry and Commerce, and explore and improve the effective mechanism for the leadership and management of the party building work of the chambers of commerce affiliated with the Federation of Industry and Commerce. Explore the establishment of the United Front work liaison system in the party organization of the Chamber of Commerce and Industry. Actively cultivate and develop chambers of commerce affiliated to the Federation of Industry and Commerce, so that chambers of commerce organizations cover all industries and fields of private economic development. Encourage and guide private enterprises to join the Chamber of Commerce, the Chamber of Commerce to develop membership shall not set up asset size and other thresholds. To the private enterprises and private economic people as the main trade associations and chambers of commerce, the Federation of Industry and Commerce to strengthen contact, guidance and services. Will be appropriate for the Chamber of Commerce to provide public service functions transferred or entrusted to the Chamber of Commerce. Through the government's purchase of services and other means, support to help the Chamber of Commerce to better undertake public services, participation in social services. Encourage the introduction of local laws and regulations or government regulations where possible to regulate and promote the development of trade associations and chambers of commerce. Accelerate the registration of chambers of commerce and industry affiliated with the Federation of Industry and Commerce in accordance with the law.

(xxv) guide the standardized and orderly development of organizations related to private entrepreneurs. In accordance with the work guidelines of mapping the situation, active contact, supervision by law, and active guidance, to be clear and job of private entrepreneur-related organizations. Entrepreneur-related organizations without association registration are not allowed to carry out association activities, and the entrepreneur-related organizations registered by the market supervision department but mainly carrying out association activities are cleaned up and reorganized, of which the eligible ones are registered and managed as social organizations according to law. Strengthen the guidance and management of entrepreneur-related organizations holding forums, seminars, lectures, salons and other activities.

#### Eight, strengthen the party's leadership of the united front work on the private economy

United Front Work in the private economy is an important work of the whole party. To strengthen the united front work of the private economy on the important agenda, under the unified leadership of the party committee, the formation of all aspects of both a clear division of labor and efficient synergy of the united front work of the private economy pattern.

(26) improve the leadership system mechanism. Party committees at all levels should rely on the united front work leading group to establish and improve the coordination mechanism of the united front work in the private economy, and regularly study the deployment and coordination of the united front work in the private economy. To give full play to the united front departments of party committees in the united front work in the private economy, the leading role in coordinating the role of the Federation of Industry and Commerce's role as a bridge and assistant.

(xxvii) strengthen organizational security. Enrich the united front work forces of the private economy, in accordance with the requirements of both proficient in united front work and familiar with economic work, select and strengthen the cadres of the relevant business departments of the United Front Work Department and the organs of the Federation of Industry and Commerce. Heavy workload of the city and county party committee United Front Work Department to coordinate the existing resources to enrich the work force to ensure that the work is carried out.

(XXVIII) strengthen capacity building. Strengthen education and training, focus on practical exercises, and comprehensively improve the overall quality of the cadres of the United Front Work of the private economy, to further enhance the ability to grasp the overall situation, the ability to deal with risk and

challenges, the ability to communicate and coordinate, the ability to develop and innovate, and provide strong support for the United Front Work of the private economy in the new era.
