On the afternoon of April 21, the 10th Presidium Meeting of China Rubber Industry Association was held in Qingdao. At the meeting, Yuan Zhongxue, chairman of Sailun Group Co., Ltd., was elected as the executive chairman of the tenth presidium of CRIA.

Yuan Zhongxue, deputy to the 12th National People's Congress, is currently director of National Rubber & Tire Engineering Technology Research Center, chairman of Sailun Group Co., Ltd. He is also the senior vice chairman of the China Rubber Industry Association and the National Engineering Experiment of Tire Advanced Equipment and Key Materials. He has been rated as an outstanding builder of socialism with Chinese characteristics, a model worker in the national petroleum and chemical industry, and has won numerous national, provincial and ministerial scientific and technological awards, and has become a leader in China's rubber industry. Especially when he was a deputy to the National People's Congress, he was enthusiastic about the development of the industry, actively put forward suggestions and suggestions to the country, called for solving the difficulties of the industry, made suggestions for the development of the industry, and did a lot of work for the healthy and sustainable development of China's rubber industry.

Yuan Zhongxue is a representative of the 12th National People's Congress. He is currently the director of the National Rubber and Tire Engineering Technology Research Center and the chairman of Sailun Group Co., Ltd. He is also the senior vice chairman of the China Rubber Industry Association and the National Engineering Experiment of Tire Advanced Equipment and Key Materials. He has been rated as an outstanding builder of socialism with Chinese characteristics, a model worker in the national petroleum and chemical industry, and has won numerous national, provincial and ministerial scientific and technological awards, and has become a leader in China's rubber industry. Especially when he was a representative of the National People's Congress, he was enthusiastic about the development of the industry, actively advising the country and calling for solutions to industry difficulties, making suggestions for industry development, and doing a lot of work for the healthy and sustainable development of my country's rubber industry.

Xu Wenying, president of CRIA, awarding a plaque to Yuan Zhongxue

Shen Jinrong, executive chairman of the 9th presidium, stepped down with honor. During his tenure, Shen Jinrong conscientiously performed his duties, made suggestions on major issues concerning the development of the industry, and actively promoted the communication and exchange of advanced technology and information in the industry. In particular, Shen Jinrong played an important role in major events such as increasing export tax refund for tires and rubber products, canceling or reducing import duties on natural rubber, and formulating inspection standards for composite rubber and mixed rubber, and has made outstanding contributions to the sustainable development of the industry. In addition, he also actively provided valuable opinions for the construction of the association, and actively played a leading role in the work of the industry, and accelerated the construction of a strong rubber industry.

Deng Yali, the honorary chairman and president of the board of supervisors of CRIA, awarding a plaque to Shen Jinrong

According to China Rubber Web, the presidium of CRIA is a core summit organization of the association, which is composed of executive directors of the association and a small number of enterprise leaders with significant influence. The presidium has two executive chairmen, one of whom is the current president of CRIA, and the other is elected from among the presidents of enterprises and institutions. In principle, the term of office is two years.

The purpose of establishing the presidium of the CRIA is to deal with industry emergencies, emergencies and major events; and secondly is to lead the healthy and sustainable development of China's rubber industry and strive to become a world rubber industry power.
