

Prometeon Tire plans to expand capacity at Türkiye plant

2022/11/21 16:25:59 Editor: Zhang Jiashuo Font Size: Large, Medium and Small

According to recent reports from foreign media, Prometeon Tire plans to expand the production capacity of its Turkish factory.

The total investment in the expansion project is 4.926 billion Turkish liras (approximately RMB 1.894 billion).

They will purchase and install new production equipment without increasing the plant area.

It is estimated that in the next seven years, the annual production capacity of this factory will increase to 209,000 tons.

Statistics show that the Prometeon Turkey factory was put into production in 1960 and was the first tire factory in the country.

Its main product category is commercial tires, which are targeted to be sold to the local market and the European market.

In 2021, the company opened a research center at the plant.

They plan to transform this factory into their largest commercial tire production base.

It is understood that the Prometeon tire was formerly known as Pirelli Industrial Srl (Pirelli Industrial Tire).

At present, 100% management rights of this tire manufacturer are owned by Fengshen Tire.
