Ministry of Commerce General Administration of Customs Announcement No. 2018 of 109 Announcement on the cancellation of the "Certificate of Operation Status and Production Capacity of Processing Trade Enterprises"

【Issuing Unit】 Department of Foreign Trade 【Release Number】 Ministry
of Commerce General Administration of Customs Announcement No. 2018
of 109

【Date of Issue】 December 2018, 12

Ministry of Commerce General Administration of Customs
Announcement No. 2018 of 109

According to the work deployment of the State Council's "decentralization, management and service" and the Several Opinions of the State Council on Promoting the Innovation and Development of Processing Trade (Guo Fa [2016] 41), in order to deepen the reform of the processing trade management system, further improve the level of facilitation, and improve the supervision during and after the event, the "Certificate of Operation Status and Production Capacity of Processing Trade Enterprises" (hereinafter referred to as "Production Capacity Certificate") is cancelled nationwide, and processing trade enterprises independently promise to have corresponding production and operation capabilities. The relevant matters are hereby announced as follows:

2019. From January 1, 1, enterprises engaged in processing trade business will no longer apply for the "Certificate of Production Capacity", and the competent department of commerce will no longer issue the "Certificate of Production Capacity" for processing trade enterprises.

2. To carry out processing trade business, enterprises must have corresponding production and operation capabilities. Processing enterprises shall have factories, processing equipment and workers appropriate to the scope of business, and operating enterprises shall have the right to import and export. Enterprises should consciously fulfill social responsibilities such as safe production, energy conservation and low carbon, and environmental protection.

1. To carry out processing trade business, enterprises must log in to the "Information System on the Operating Status and Production Capacity of Processing Trade Enterprises" (<https://ecomp.mofcom.gov.cn/>) and fill in it independently. Report the "Information Table on the Operating Status and Production Capacity of Processing Trade Enterprises" (hereinafter referred to as the "Information Sheet"), and make a commitment to the authenticity of the information. The "Information Form" is valid for <> year from the date of filling in (renewing), after the expiration or if the relevant information changes, enterprises should update the "Information Form" in a timely manner.

4. Enterprises that have filled in the "Information Form" online go to the competent customs to go through the procedures for the establishment (change) of the processing trade manual (account) book, and do not need to submit the paper "Information Form".

2019. If the enterprise has obtained the "Production Capacity Certificate" before January 1, 1, and the information has not changed, it can still go to the competent customs to handle processing trade procedures with the "Production Capacity Certificate" within the validity period.

6. Where an enterprise makes false promises, it will be recorded in the enterprise's creditworthiness record, and measures such as lowering the customs credit rating will be taken in accordance with law.

7. The competent departments of commerce and customs should continue to strengthen services and guidance for processing trade enterprises, do a good job in policy publicity and promotion, and ensure the smooth operation of processing trade management.
