In order to maintain the stable growth of foreign trade and optimize the structure of import and export commodities, the catalogue of prohibited commodities for processing trade is now adjusted, and relevant matters are announced (<http://www.mofcom.gov.cn/article/b/c/201701/20170102497980.shtml>) as follows:

2014. According to the 1871 customs commodity code, the adjusted catalogue of prohibited commodities for processing trade has a total of <>,<> commodity codes.

2. The following circumstances are not listed separately in the catalogue of commodities prohibited by processing trade, but are managed in accordance with the prohibited categories of processing trade:

(1) Importing seeds, seedlings, breeding stock, fertilizers, feed, additives, antibiotics, etc. for planting, breeding and other export products;

(2) Production and export of imitation guns;

(3) Commodities that belong to the catalogue of prohibited goods and the catalogue of prohibited goods for export that have been issued by the state.

3. This announcement applies to special customs supervision areas, except for enterprises registered by the administrative department for industry and commerce before the date of this announcement and established in special customs supervision areas engaged in relevant commodity processing trade. Enterprises within or outside the special customs supervision area shall not send prohibited commodities out for substantive processing.

4. The following circumstances shall not be managed in accordance with the prohibited categories of processing trade:

(1) Commodities used for deep processing carry-over or out of the zone after substantial processing from the special customs supervision area;

(2) Commodities used for deep processing carried forward and transferred out, or entering the special customs supervision area for substantive processing.

2014. The newly added commodities included in the catalogue of prohibited commodities in processing trade that have been approved by the competent department of commerce before December 12, 31 (Guangdong enterprises shall subject to the establishment time of the actual processing trade manual), shall be executed within the validity period of the contract. Enterprise-based networked regulatory enterprises are allowed to be implemented by June 2015, 6. If the above-mentioned business expires and has not been completed, it will not be extended, and shall be handled in accordance with domestic sales, return or other regulations of processing trade.

2004. In this announcement and the attached catalogue, the term "substantial processing" shall be implemented in accordance with the Provisions on Substantial Changes in the Rules of Non-Preferential Origin (Order No. 122 of <> of the General Administration of Customs).
