68 Subsidy Fund for Development of Fishery Industry

1. Title of the subsidy programme

Subsidy Fund for Development of Fishery Industry.

2. Policy objective and/or purpose of the subsidy

To promote the high-quality development of fisheries and solve the problems of fisheries development. To optimize industrial structures and achieve economic transformation and upgrading. Reduce the intensity of offshore fishing, protect marine fishery resources, and promote the development of aquaculture, aquatic processing industries and other industries. In line with the international trend in fisheries subsidies, direct cost subsidies shall be abolished to guide fishermen to conserve fisheries resources and strengthen external cooperation in fisheries.

3. Background and authority for the subsidy

MOF, MARA.

4. Legislation under which it is granted

MOF Circular Cai Nong No. 41 of 2021;

5. Form of the subsidy

Grant.

6. To whom the subsidy is provided

Fishermen, new business entities, research institutes and universities and other relevant units that meet relevant requirements and undertake corresponding tasks.

7. How the subsidy is provided

Funds shall be measured and allocated in factor method and can be supported through first-built-then-subsidized, rewards in lieu of subsidies, direct subsidies and interest subsidies, etc. Five key aspects are as follows.

1) National marine pastures. Support national marine pastures with artificial reefs, supporting platforms and other elements to restore the marine ecological environment and conserve marine fisheries resources;

2) Modern fisheries equipment and facilities. 2.1) First, support the renewal of legal marine fishing vessels as well as the renewal of facilities and equipment such as anti-fouling and fire-fighting,

life-saving and navigation, production and living on legal fishing vessels. A key point is to support the renewal of old fishing boats with high energy consumption and poor safety conditions into new energy-saving and environmentally safe materials such as glass steel, aluminum alloy and polyethylene, as well as the renewal of fishing boats with high intensity of resource destruction into resource-friendly fishing boats to enhance the safety of boats. Offshore fishing vessels must be upgraded without any increase in main engine power. For distant water fishing vessel, if a regional fisheries management organization that China has joined or acceded to or the government of the coastal countries that China has a fishing access agreement with, has provisions on the parameters of fishing vessels, these provisions shall prevail. 2.2) Second, support the construction of deep-water nets and large-scale intelligent farming equipment and other deep-sea farming facilities and equipment. 2.3) Thirdly, support the construction of facilities and equipment for primary processing and cold storage and preservation of aquatic products on land;

3) Fishery basic public facilities. Support coastal fishing port economic zones that are included in national planning in carrying out renewal and improvement of public welfare infrastructure in fishing ports in the region;

4) Green and circular development of fishery industry. Support the standardization of concentrated inland aquaculture ponds and the treatment of tailwater from the aquaculture industry to meet standards, and support the equipping of intelligent water quality monitoring and environmental regulation systems;

5) Fisheries resources survey and conservation and international compliance capacity enhancement. Support ocean-going fishing vessels that fulfil international conventions to conserve international fisheries resources, guide the rational use of marine fisheries resources and support the conduct of surveys and monitoring of fisheries resources, etc. The fund is from the budget funds of the central government and is transferred from the central to the local government in the form of general transfer payment and is in the charge of the local government. The funds shall be used in accordance with the conditions stipulated by the MOF Circular Cai Nong No. 41 of 2021 and the MOF Circular Cai Nong No. 24 of 2021. Sub-central level subsidy in nature, and the funds may overlap with the subsidy programs notified as local government programs. Under the WTO Fisheries Subsidies Agreement, only part of (5) and (2.1) are fisheries subsidies, and the rest are notified because they are written in the same document as fisheries subsidies.
