On April 25, 2019, President Xi Jinping met with Indonesian Vice President Kalla at the Great Hall of the People.

Xi Jinping accepted the personal letter from Indonesian President Widodo presented by Kalla, and asked Kalla to convey his sincere greetings to President Joko. Xi Jinping pointed out that the 21st Century Maritime Silk Road was proposed during my visit to Indonesia. In recent years, the two countries have taken the joint construction of the "Belt and Road" as an opportunity, and bilateral relations have made new progress, and cooperation in various fields has achieved remarkable results. The two sides should continue to promote good-neighborliness and friendship, support each other on issues involving each other's core interests and major concerns, and keep the right course of bilateral relations. The joint construction of the "Belt and Road" and the "Global

Maritime Fulcrum" are the general outline of cooperation between the two countries in the new era. The two sides should clarify key cooperation areas and directions as soon as possible, and implement key cooperation projects such as the Jakarta-Bandung high-speed rail. I propose to build a new type of international relations based on mutual respect, fairness and justice, and win-win cooperation. The purpose is to provide Chinese solutions to the problems existing in the world today. This is in line with the "Ten Principles of the Bandung Conference" jointly advocated by China and Indonesia 64 years ago. The two sides should closely communicate and coordinate, jointly safeguard the legitimate rights and interests of developing countries, and work together

to build a community with a shared future for mankind.

Kalla conveyed President Joko's warm greetings to Xi Jinping. Kalla said that Indonesia is an important partner in the international cooperation of the "Belt and Road Initiative", and is willing to strengthen exchanges and cooperation with China in trade, investment, education, etc., and carry out the construction of the "Regional Comprehensive Economic Corridor" to help Indonesia's industrialization process. Indonesia is willing to work with China to firmly uphold multilateralism and jointly promote world and regional peace, stability and prosperity.
