

**Anonymous submission to trade remedies investigation AD0059: Certain engine oils and hydraulic fluids from Lithuania and the UAE.**

NON Confidential Version

Good morning, [REDACTED]

[REDACTED]

We've now seen **even lower pricing** from SCT Lubricants (Mannol), as displayed publicly by one of their resellers. Please see the attached or linked price as an example. The product in question — a fully approved 208L lubricant — is being offered at **£295 + VAT**, which equates to **£1.41 per litre**. This is a reseller price, so the actual import cost must be significantly lower. In our view, this pricing is **not commercially viable** and clearly indicative of **dumping behaviour**. Please see below

[Pye Motor Oil | 5w30 Oil Barrel | Motor Oil](#)

Considering the price as gone up with the current rates, they are managing to sell it at £100 pounds less. That's an interesting activity.
