

To Whom It May Concern:

We are aware that there may be a tariff increase on certain items we buy which is affected by the above issue.

Please be aware that we source this material from Voestalpine and it is a critical part of our production process (without this item, our production process would grind to a halt).

We support Voestalpine's argument against this tax as it would impact on us as their customer and ergo on our customers – who feed into the food supply and medical end use sectors (critical supply areas).

Kind Regards,

A handwritten signature in black ink, appearing to read 'Rajdeep Dhiman'.
