

Brazil electricity prices

Brazil	Electricity prices
Residential price	0.147
Business price	0.117
Measure	USD / kWh
Reference	December 2023
Data availability	March 2019 - June 2024
Data frequency	Quarterly

Brazil, December 2023: The price of electricity for households is BRL 0.841 per kWh or USD 0.147 per kWh. The electricity price for businesses is BRL 0.669 kWh or USD 0.117 per kWh. This includes all components of the electricity bill such as the cost of power, distribution and taxes. For comparison, the average price of electricity in the world for that period is USD 0.157 per kWh for households and USD 0.154 per kWh for businesses.

We calculate several data points at various levels of electricity consumption for both households and businesses but on the chart we show only two data points. For households, the displayed number is calculated at the average annual level of household electricity consumption. For businesses, the displayed data point uses 1,000,000 kWh annual consumption.

The latest business and household electricity price data from June 2024 are available for [download](#).
