Mexico electricity prices

Mexico electricity prices	Household, kWh	Business, kWh
Mexican Peso	1.712	3.327
U.S. Dollar	0.084	0.164

Mexico, September 2021: The price of electricity is 0.084 U.S. Dollar per kWh for households and 0.164 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes. For comparison, the average price of electricity in the world for that period is 0.133 U.S. Dollar per kWh for households and 0.125 U.S. Dollar for businesses. We calculate several data points at various levels of electricity consumption for both households and businesses but on the chart we show only two data points. For **households**, the displayed number is calculated at the average annual level of household electricity consumption. For **businesses**, the displayed data point uses 1,000,000 kWh annual consumption.
