### REF Anti Dumping Investigation AD0071 – Statement of Essential Facts

We note the TRA's Statement of Essential Facts under the above mentioned investigation.

As set out in our previous submissions, we support the TRA's second option, their preferred Alternative Proposal, which would apply measures only to goods less than 2,500mm wide.

We cannot envisage any circumstances in which the Initial Proposal could be considered fair or acceptable.

We remain at your disposal,

Yours faithfully  
Simone Draper  
Director  
ISTA
